coverstory Final assignment: **'Tom Clancy's Jack Ryan'** starts his last Prime Video mission

Jack Ryan has had several screen lives, via a variety of actors, and his latest one is about to begin its final round.

John Krasinski returns as the CIA analyst who typically finds himself in the thick of action as the fourth and final season of the Prime Video adventure-drama "Tom Clancy's Jack Ryan" premieres Friday, June 30. Arriving six months after Season 3 began – an unusually short span between seasons for a streaming series – the program will debut two of its six new episodes each Friday, and the concluding story tests Ryan in terms of enemies both foreign and domestic.

Now the acting deputy director of the Central Intelligence Agency, Ryan is concerned with the behavior of his own operatives as he starts a probe of possible corruption. Before long, though, he discovers several black ops situations that might make America vulnerable to plots from overseas ... with the union of a drug cartel and a terrorist group potentially spelling very bad things for the United States, and challenging Ryan's strongly held beliefs in right, wrong and justice.

Krasinski also is among the executive producers of "Tom Clancy's Jack Ryan," on which novelist Clancy is given the same credit posthumously. Other returning cast members include Wendell Pierce – a Tony Award nominee this year for "Death of a Salesman" – as Ryan's former supervisor James Greer, and Abbie Cornish in a reprise of her Season 1 role as Ryan's girlfriend (and, per the Clancy books, eventual wife) Dr. Cathy Mueller. The new season also features Michael Pena as Domingo Chavez, the protagonist of an intended spinoff series.

As mentioned, "Tom Clancy's Jack Ryan" is the latest iteration of a franchise that dates back to 1987 in print ("Patriot Games" was the first novel) and to 1990 on film. "The Hunt for Red October" was the initial Ryan movie, and though he certainly was a major character as played by Alec Baldwin, top billing went to the star who played the character Ryan was investigating: Sean Connery as Soviet submarine commander Marko Ramius.

The film was an enormous hit for its time, making more than

\$200 million worldwide, and one only can speculate whether the result would have been the same if the originally intended casting (Kevin Costner as Ryan, Klaus Maria Brandauer as Ramius) had stuck. The outcome virtually demanded a follow-up, and that arrived in 1992 with the screen version of "Patriot Games," but with a significant change in the actor playing Ryan.

Stories differ a: Baldwin didn't return, mostly related to the timing of his commitment to a Broadway revival of "A Streetcar Named Desire," but Harrison Ford got the part next ... and not just for one film, but for two. Harrison Ford, who had built a reputation for brainy action tales, was enlisted to assume the part; that turned out to be a good move, since the picture grossed slightly under \$180 million internationally in its original theatrical run.

That made Paramount Pictures feel good about retaining Ford for 1994's "Clear and Present Danger," though Clancy hadn't been happy with the "Patriot Games" movie and had considered withholding the screen rights to other Ryan stories. (A considerable financial incentive for the author reportedly resolved that hurdle.) Despite problems caused by Mexican-location unrest and earthquake-damaged footage, all turned out well, with "Clear and Present Danger" becoming the franchise's top-grossing entry with \$216 million worldwide.

tasty[†]√ BY CAROLINE COLLACUTT Season 2 of Netflix's 'Is it Cake?' makes deception delectable

Designed to trick even the most trained eye, illusion cakes have become an internet sensation, with shows like "Is It Cake?" reaching massive audiences of dedicated viewers, and popular TikTokers and YouTubers like Jonny Cakes (Jonny Manganello, who competed in Season 1 of "Is It Cake?") creating hyperrealistic baked goods for thousands upon thousands of followers and subscribers online. These reality-bending cakes delight and confuse, and for fans looking to bite into more – of what's hopefully cake – Season 2 of the cake decorating series, aptly named "Is it Cake, Too?" is now available to stream on Netflix.

The series features eight new episodes, all hosted by "Saturday Night Live's" Mikey Day, as he returns to the (very real) kitchen for his second season driving this – as Netflix calls it – "baking competition that makes you question the very fabric of reality."

"Prepare for toilets, yoga mats, guitars, rollerblades and even a replica of the Mona Lisa to get sliced and diced in the process," Netflix wrote in a recent news release, "as each week the cake artists put their incredibly niche skills to the test."

The competition begins with 10 hopeful bakers, each faced with their first challenge before the eggs, butter and milk ever come out. First, the contestants – all of whom specialize in hyperrealistic baking themselves – must identify the illusion cake hidden among a group of random, everyday objects – like, for instance, within a full-scale replica of Michael Day's college dorm room. Only the bakers able to guess correctly will move on to the main competition.

From there, the remaining few must utilize their strangely specific skills to create their own illusion cakes within an eighthour period. The cakes will then be presented to a panel of celebrity guest judges, who will have 20 seconds to determine which, in a line of near-identical objects, is actually cake. Those who fail to trick the judges will be eliminated from the game, and in the end, only one trickster-baker will be left, crowned champion of "Is it Cake, Too?"

This season, guest judges include Kate Flannery ("The Office"), Joel McHale ("Community"), Kirby Howell-Baptiste ("Barry"), Taylor Tomlinson ("Taylor Tomlinson: Look at You," 2022), Anna Camp ("Pitch Perfect," 2012), Chiney Ogwumike of the Los Angeles Sparks and many more, who put all five senses to the test as they judge creations on "Is It Cake, Too?," now available to stream on Netflix.

playerprofile **BY ROBERTO JOZEF Gauff looks to recreate** Wimbledon magic

The lawns of the All England Club have been prepped for another chapter of Wimbledon history, as one of the tournament's rising stars, Cori 'Coco' Gauff, gets set for what's expected to be a thrilling showdown.

level for college athletes, she always had a warm push to involve herself in sports and make it a career. Gauff, at the young age of 19, has been cementing her name in the history books, putting on displays of her raw talent, relentless work ethic and raising the bar of expectations at every tournament.

She first put herself on the map at the 2019 Wimbledon Championships when she shocked the world by defeating the legendary Venus Williams in the first round as a 15-year-old wild card, securing a dominant 6-4, 6-4 victory. She became the youngest player to advance to the fourth round of Wimbledon since 1991.

Shortly after, she took her talents to the U.S. Open, where she once again became the youngest player to advance to the third round since 1991, later losing to Naomi Osaka. Despite the early setbacks, Gauff remained determined to grow and continue pushing herself.

Starting off 2020 ranked at No. 67, Gauff reached the fourth round of the Australian Open, giving her three Grand Slam appearances in a row with at least a fourth-round finish. While she has still yet to accomplish the ultimate feat of winning a Grand Slam championship, she's been knocking on the door consistently. Last season she recorded her best major singles finish when she reached the French Open final, losing to world No. 1 Iga Swiatek in straight sets.

OF ENDEAVOUR ON MASTERPIECE ON PBS

Q: With "Endeavour on Masterpiece" coming to its end, are you a fan of detective shows anyway?

A: Because of the nature of the work, it can kind of ruin watching stuff because you can sort of see the (connections in the mystery) ... for me, at least. You can see, "Oh, there's the red herring. There's the this or the that." That's not about American shows, that's just about shows in general. Also, I find it quite difficult when you are working to watch other stuff, because it takes you out of the moment.

Q: You've played Endeavour Morse both with and without a mustache. Which do you prefer?

A: I don't mind it. I like it. I think it's cool. What I think is terrific, if you're telling a long-form story, is that you can change a little bit and the audience will go with that. I also like it as an idea as a sort of metaphor for not being able to look in the mirror or try to change yourself in a way. I didn't really think too deeply about it, to be totally honest with you.

Q: You've also directed several episodes of "Endeavour on Masterpiece." How was it to do that job while also acting in the show?

A: It was an extraordinary experience from start to finish. I'd been directing for a few years prior to that, but it was the first time I'd done anything that I was in. And it was extraordinary because you realize what you can achieve if you're prepared and if you've got a good team around you.

We shot my episode, the (first) one that I directed, first (that season). And then I did my edit in post-production over the weekend while we were shooting the next three episodes. So that was challenging, only in terms of trying to keep a couple of stories in your head at all times and to give every moment its full weight and attention. But it's an extraordinary opportunity, and I just wanted to make the most of it.

'Gone With the Wind' breezes onto TCM again

Though it now carries a viewer advisory about "outdated cultural references," for many fans, "Gone With the Wind" remains one of the greatest movies ever made.

A personal favorite of media mogul Ted Turner, the 1939 epic was the first film ever shown on Turner Classic Movies — where it returns Wednesday, July 5, as part of the first night of a month-long "The South on Film" showcase. Indeed, tales don't get much more Southern than this one, with novelist Margaret Mitchell's saga using the Civil War, its prelude and its aftermath as backdrops for one of the most famous love stories in the history of fiction.

As anyone with any knowledge of popular fiction probably knows, that romance is between celebrated rogue Rhett Butler and willful belle Scsrlett O'Hara. The public famously demanded (and got) Clark Gable as Butler, but choosing an actress to play Scarlett involved a legendary casting call and many actresses

before Vivien Leigh was chosen. The teaming was inspired, since the two stars are thoroughly convincing as they enact both the tender and combustible parts of Rhett and Scarlett's relationship.

Overseen by producer David O. Selznick through an arrangement with MGM, which has deemed the picture one of the crown jewels of its library through any and all financial difficulties the studio has endured, "Gone With the Wind" is breathtaking in its scope under director (and Gable pal) Victor Fleming ... particularly for an era when moviemaking supposedly had its limitations. One great example is a sequence that shows Atlanta's outdoors as a makeshift hospital for wounded soldiers, with rows upon rows of the injured stretching back as far as one can see.

For such largesse, though, "Gone With the Wind" also works as an intimate charting of the ups and downs of Rhett and Scarlett's romance. He enjoys teasing her about her supposed resistance to him early in their courtship, but things take a darker turn as he tires of her playfulness and wants more of a commitment from her. One factor working against that is her deep love for Ashley Wilkes (Leslie Howard), who is fond of Scarlett, but not on the same level since his heart belongs to his pure-hearted distant relative Melanie Hamilton (Olivia de Havilland).

celebrityq&a Tom Hiddleston OF THE NIGHT MANAGER ON AMC

Q: Is Tom Hiddleston ever going to return to his "Night Manager" role? I know there was talk of a second season at one time.

A: Your question is well-timed, which makes it a remarkably good guess, because it's not like Tom Hiddleston's ("The Avengers," 2012) schedule has gotten any less full lately. Nonetheless, it was recently announced that a second season of "The Night Manager" is indeed in the works.

Hiddleston played Jonathan Pine, a one-time hotel

manager who goes deep undercover to bring down an arms dealer, in "The Night Manager," based on the novel by John le Carre. It was released in 2016 on AMC in the U.S. and BBC in the U.K., and thought at the time to be a miniseries — mostly due to the fact that it told (more or less) the book's whole story.

But it was a huge hit for the networks, and soon there were rumors of a second season. However, Hiddleston at the time was incredibly busy playing Loki in just about every Marvel movie and, eventually, his own show (Season 1 of "Loki" was released on Disney+ in 2021). Soon people gave up hoping for a second round of "The Night Manager" amid the sheer volume of Loki content (he has appeared as the Asgardian trickster god in nine films and TV series so far) and after so much time had passed.

But it seems that Hiddleston has finally found a moment to return to the role - a much more grounded and gritty sort of project.

Deadline.com reports that it will start filming later this year. David Farr, who wrote the first season based on le Carre's novel, will be back to write this one, this time unterhered to any source material.

reality by CAROLINE COLLACUTT Jukebox heroes: Netflix's 'WHAM!' documentary shines a spotlight on '80s duo

Part concert film, part documentary, this feature-length picture focuses on the rise and fall of the classic '80s musical duo composed of Andrew Ridgeley and the late George Michael (1963-2016), who together tell an impeccable story of stardom and a rise to fame that happened in a blink of an eye. "WHAM!" premieres Wednesday, July 5, on Netflix.

Told for the very first time through the eyes of Michael and Ridgeley, "WHAM!" explores how two 18-year-olds from London, England, set out to take the music world by storm in 1982 and accomplished just that in only a few years' time, as the superstar pop group dominated the charts with long-standing hit classics such as "Club Tropicana" (1983), "Wake Me Up Before You Go-Go" (1984), "Freedom" (1985), "I'm Your Man" (1986), the holiday favorite "Last Christmas" (1986) and many more, with multiple tracks earning No. 1 Billboard status on both sides of the Atlantic Ocean.

The duo found themselves in a white-hot spotlight, bright but short-lived, as WHAM! played their final, iconic show at Wembley Stadium in 1986, only four years after the band's founding. Only in their early twenties at the time of their split, both Michael and Ridgeley went on to have careers of their own, with Michael going on as a highly-successful solo artist, releasing hits of his own through the '80s, '90s and beyond, such as

"Careless Whisper" (1984), "Faith" (1987) and "Fastlove" (1996), earning himself two Grammys along the way. Ridgeley, meanwhile, moved on to try performing on stages of a different sort, first trying his hand at Formula Three racing before eventually moving to Los Angeles to pursue a short-lived acting career. By 1990, Ridgeley returned to live in the U.K. and has been participating heavily in charity work ever since.

"With unprecedented access to both George and Andrew's personal archive, including remarkable and never-before-seen footage alongside rare, candid and previously unheard interviews, 'WHAM!' charts their incredible journey from school friends to superstars," promises a news release from Netflix.

More 'Magnum': When will it happen

Q: Will the start of the new season of "Magnum P.I." be delayed? - Jennifer Oliver, Kansas City, Mo.

A: Possibly, but it also could be moved up. Technically the second half of the Jay Hernandez-starring reboot's fifth season, which NBC decided to split in two when it picked up the show after CBS' cancellation of it, it is slated to begin at midseason after the completion of "Sunday Night Football" (as was the case this past winter).

The filming was done as if the series was making the complete season at once, per tradition, and the writers' strike – which has led to delays in the making of other shows – may necessitate a need for the new "Magnum" episodes (which already have been filmed) sooner when the 2023-24 television season begins. Time, and the length of the strike and NBC's programming needs, will tell.

bestof ...

"Yankee Doodle Dandy" (1942): One of the true Warner Bros. classics, this biography of master "born on the Fourth of July" showman George M. Cohan boasts one of screen history's truly iconic performances as James Cagney — rightfully awarded an Oscar for his work here — does alternately energetic and, particularly in the home stretch, quietly affecting work. The film was released just a few months before Cohan's death, and it's said that he saw and enjoyed Cagney's portrayal. An annual holiday staple of Turner Classic Movies, the film runs there again Tuesday, July 4.

BEST JULY 4TH MOVIES

"The Music Man" (1962): Though it's ultimately about more than Independence Day, the holiday does figure into Meredith Willson's wonderfully tuneful musical that boasts a career-defining performance by Robert Pres-ton as "Professor" Harold Hill, the con artist who promises Iowa townsfolk that he'll organize a marching band. The piece's heaping helping of nostalgic American life remains irresistible. TCM also has this on Tuesday, July 4. "1776" (1972): With its title and theme, this surely merits inclusion here. Produced by former studio mogul Jack L. Warner, who was no stranger to patriotic movies, this adaptation of the stage hit – retaining much of the original Broadway cast, very much to its credit - gave a musical slant to the signing of the Declaration of Independence by John Adams (played by William Daniels), Benjamin Franklin (Howard Da Silva), Thomas Jefferson (Ken Howard) and others. And yes, TCM serves this up again as well on Tuesday, July 4.

"Jaws" (1975): The centerpiece of the blockbuster thriller that put director Steven Spielberg on the map is the July 4th celebration on New England's Amity Island, whose profit-minded mayor (Murray Hamilton) refuses to issue warnings about the Great White shark that has started to decimate the population. He comes to regret that decision ... as do Police Chief Martin Brody, hunter Quint and shark expert Matt Hooper (Roy Scheider, Robert Shaw, Richard Dreyfuss), who become seafaring partners in tracking down the lethal marauder.

"Blown Away" (1994): Not a traditional Fourth of July movie, this melodrama about old enemies who bring their battle from Ireland to Boston still uses the holiday in a major way, since Beantown's traditional Independence Day concert factors hugely into the climactic sequence. A terrorist (Tommy Lee Jones) comes to America to target a former comrade turned Boston cop (Jeff Bridges), and the latter's new wife (Suzy Amis) just happens to be one of the musicians performing in the concert.

"Independence Day" (1996): Well, of course. This earthlings-vs.-aliens adventure is a July 4th natural, and the title still does represent a battle for freedom ... if much more sophisticated technically than what our nation's forefathers experienced. Bill Pullman (as the U.S. president), Jeff Goldblum, Vivica A. Fox and Judd Hirsch are among the stars - but as a fighter pilot, Will Smith makes a particular impact, thanks to his frequently humorous rejoinders upon being attacked by extraterrestrials.
