WELCOME TO CLAY COUNTY

As Chair of the Clay County Board of Commissioners, I would like to extend a warm welcome to you. Clay County, Florida, is a place with small towns and big passions located southwest of Jacksonville with the entire eastern border nestled along the banks of the scenic St. Johns River. Within the county's 644 square miles, you will discover natural beauty, rich history, and a vast array of natural and agricultural resources minutes away from lively business environments.

Founded in 1858, our County has developed into a diverse mixture of suburban and rural areas, resulting in a vivid panorama of productive, modern living, top-rated schools, a well-trained skilled workforce, bustling retail centers, and economic vitality. Clay County is a haven for those who love nature and the outdoors and home to some of the region's best golf courses, public parks, and walking and bicycling trails. If you add in the enjoyment of boating, fishing, canoeing, or kayaking on our miles of navigable waterways, you can see why people love Clay County.

While you're in Clay County, we invite you to explore the many experiences we have in our small towns. You can visit a historical marker citing the 1716 Fort San Francisco de Pupo, our Civil War sites, or the multiple locations used in World War II, like Lee Field, Reynolds Industrial Park, and Camp Blanding. You can explore more than 93,000 acres of parks 35 miles of trails, and 39 square miles of waterways. You're sure to find some great picture spots. Head to one of our many small businesses to shop, grab a coffee from local roasters, and enjoy unique entrees and favorites served at our locally owned eateries. Our retailers feature locally made products, repurposed vintage ware, antiques, and specialty gifts.

If you run out of time on this trip, please come back to enjoy the uniqueness of the place I call home. I hope you enjoy your time here and look forward to seeing you explore the small towns and big passions Clay County has to offer throughout the year.

Sincerely,

Betsy Condon

Psalm 77: 13-14 (Extract from God Calling)

Remember this beautiful earth on which you are was once only a thought of Divine Mind. Think how from your thought one corner of it could grow and become a Garden of the Lord, a Bethany-Home for your Master, a place to which I have a right to bring My friends, My needy ones, for talk and rest with Me.

Escape The Cold- Winter Activities

By Carrie McLaren

Winter weather got you down? Wanting to spend more time outdoors, but the chilly temperatures are keeping you inside? Plan yourself a visit to Clay County, Florida and soak up some Florida sunshine as you breathe in the outdoors.

Here's a look at some popular activities to experience this winter during your time in Clay County -

Let's Play Golf!

Interested in playing golf this winter? Choose from one of Clay County's four, pristine golf courses. In Green Cove Springs, test your skills at the [Magnolia Point Golf Club](#) among the pine and magnolia trees. Set within a 1,000-acre community, wildlife is frequently seen on the course, making it a unique playing field for golfers. The [Fleming Island Golf Course](#) comes in at 6,700 yards with a par of 71. Surrounded by water and carefully-placed sand bunkers, the front nine challenges golfers to play their best game while the back nine features a quiet course among the trees and wildlife.

Unique to Fleming Island Golf Club is the **Top of the Tee** – home to ten covered hitting bays equipped with Toptracer Technology. Each bay has its own seating area, paired with a nearby bar and televisions making this venue perfect for groups. Golfers can choose from different games including closest to the pin, longest drive competitions, points games and more. The lighted driving range also allows for players to practice even after the sun goes down.

In Clay County's Oakleaf neighborhood, [Eagle Landing Golf Course](#) features a 7,037-yard, par 72 course surrounded with Southern pine and palmetto trees. With six tees, ranging from juniors to championship, this course progresses in difficulty as the game finds its way the 18th green.

Best known for their island practice green, the [Eagle Harbor Golf Course](#) in Fleming Island features an 18-hole course surrounding the Eagle Harbor community of homes. Designed by award-winning course architect Clyde B. Johnston, golfers can enjoy rolling Bermuda grass fairways with plenty of water hazards to make the course a bit more challenging.

Go for a Bike Ride

Whether you are into biking nature trails, the open road or racing against fellow competitors, Clay County offers a variety of options for those interested in exploring the area on two wheels in the wintertime.

One of Clay County's most popular biking spots is the [Black Creek Park and Trail](#). Adjacent to Highway 17, this 8-mile paved path connects bikers and walkers to points between Orange Park, Fleming Island and Green Cove Springs. Black Creek Park serves as a starting/ending location with parking, a covered pavilion and restrooms. The park also serves as

the starting point for the mountain bike course that runs two miles through the park. Existing trailheads are at Black Creek Park, [Thunderbolt Park](#) and [Camp Chowenwaw County Park](#).

In Keystone Heights, cyclists can join in on the [Palatka-to-Lake-Butler State Bike Trail](#). This 47-mile trail connects west of U.S. 17 in Palatka to State Road 238 in Lake Butler, as it runs along the former Norfolk-Southern Railroad right-of-way through Putnam, Clay, Bradford, and Union counties. This cycling path was deemed part of the Florida Greenways and Trails System in 2007 and purchased with Preservation 2000 funds through the Florida Greenways and Trails Acquisition Program.

Look for Manatees

Manatees, also known as sea cows for their grazing habits, can often be tough to find in their natural habitats. Often found in salt, brackish and fresh water, manatees are slow-moving mammals that spend their days eating and sleeping.

Manatees cannot tolerate cold water temperatures for extended periods of time. They look for warmer waters when the water temperatures drop below 68 degrees Fahrenheit. Between November and March, manatees tend to migrate toward natural springs and waters near power plant discharge canals – both known to be places with warm water temperatures.

In Clay County, areas known for manatee sightings include the vegetation along Black Creek, Doctors Lake near private docks, Governor's Creek in Green Cove Springs and the mighty St. Johns River.

So, pack your warm weather clothes and get ready to visit Clay County – home to beautiful golf courses, hiking and biking trails, peaceful waterways, and small towns. We invite you to experience a side of Clay County that allows you to enjoy the Florida sunshine this winter.

Outdoor Adventures in Clay County

By Carrie McLaren

Spend time outdoors in Clay County exploring the 35 miles of trails throughout a variety of local and state parks, conservation areas and Florida railways. As home to three sites along the Great Florida Birding and Wildlife Trail, there's no shortage of wildlife sightings right here in Clay County.

Here's a look at where you can sleep under the stars and explore the trails of Clay County –

Black Creek Park and Trail

As home to one of Clay County's most popular trails, [Black Creek Park and Trail](#) covers just over 71 acres with a variety of ecosystems including pine flatwoods and wetlands. The eight-mile paved pedestrian and bicycle trail can be accessed from the parking lot and runs north along U.S. Highway 17. The park's Black Creek Mountain Bike Trail system features three different trails of differing degrees each with their own elevation changes, tree roots and turns. Each trail begins and ends at the parking lot and are completely shaded, perfect for even the novice bikers. The Creek View trail is 2.5 miles long and has breathtaking views of Black Creek. The 9 Lives trail and Palmetto's Revenge Trail both stretch for about one mile. Each of the trails were designed and maintained by the Southern Off-Road Bicycle Association in Jacksonville (SORBA).

Camp Chowenwaw

Dating back to 1933, Green Cove Springs' [Camp Chowenwaw County Park](#) was once Florida's first Girl Scout Camp. Today, the public park offers 150 acres, a swimming pool and numerous trails for exploring and pristine conditions for overnight camping. From one of the many onsite cabins to a night in one of the eight treehouses, families can sleep under the stars at this historic campground.

Go for a hike on the Jungle Trail and make your way to the observation deck overlooking Black Creek. Explore the new Pawpaw Nature Center to learn about the animals and habitats that call Clay County home. At the nearby pollinator garden, visitors can learn how to attract and support butterflies and other pollinators at home.

Mike Roess Gold Head State Park

Known as one of Florida's First State Parks, [Mike Roess Gold Head Branch State Park](#) in Keystone Heights is home to 2,000 acres with 5.44 miles of trails along the Florida National Scenic Trail.

Go fishing or go for a swim in Little Lake Johnson. If you'd like to explore the area by water, canoe rentals are available. As a full-facility campground with 73 camp sites, overnight accommodations are available for RVs, tents and historic cabin rentals.

Jennings State Forest

At nearly 24,000 acres, [Jennings State Forest](#), located just

outside of the Middleburg and Oakleaf neighborhoods, is home to 15 different biological communities including sandhill, slope forest, flatwoods, seepage slope, dome swamp, blackwater stream and seepage stream.

The forest is open daily during daylight hours for visitors interested in hiking, biking, canoeing and horseback riding throughout the area. There are three hiking trails ranging from 1.7 miles to 5-mile loops taking visitors along waterways and primitive areas in the forest. Overnight camping and primitive campsites are available at the Hammock Campground.

Bayard Conservation Area

Located just south of Green Cove Springs, the [Bayard Conservation Area](#) features 10,371 acres of conservation land with seven miles of beautiful views along the St. Johns River. A variety of wildlife calls the area home including gopher tortoise, bald eagle, little blue heron, deer and turkey. Hikers can enjoy 15 miles of trails inside the John P. Hall Nature Preserve located within the conservation area. Climb the observation tower for wildlife viewing and views of the nearby St. Johns River. Two campsites within the preserve are available for overnight stays. Along with exploring the hiking trails, choose from equestrian trails, bank fishing, bird watching and primitive launch sites for canoes and kayaking.

Get ready to create your own camping and hiking adventures when you visit Clay County. Explore the natural wonders that call the area home and take advantage of the outdoor opportunities during your stay. Cheers to Clay County

By Carrie McLaren

Cheers to You, Cheers to Me!

Whether you are celebrating your sports team, catching up with friends or having a fun night out, Clay County is home to great brewers making local spirits, craft beer and serving plenty of unique, Florida flavors.

Here's a look at some of our area's makers and hot spots for grabbing an adult beverage in Clay County –

Local Makers in Clay County

For a taste of locally brewed beer from Clay County, look no further than **Pinglehead Brewing Company**. From their home base at **Brewer's Pizza** in Orange Park, Pinglehead prides themselves on making 'beer with attitude' filled with flavor and top ingredients.

The brewery's popular Magnolia Springs, a German Pilsner recently took home the award for second place in the state in the Euro and International Beer category at the Best Florida Beer Professional Championship. This crisp beer features a dry to medium finish with the traditional German hop bitterness and is a favorite among local beer enthusiasts.

At **Cultured Collective Brewery & Taproom**, all beers are made on site ranging from IPAs to Hard Seltzer. This unique location is home to a rotating menu of food trucks. No matter what you are craving, you can find it here.

For those looking for a stiff drink, stop by **Black Creek Distilleries** in Middleburg for a tour and have a lemon drop made with their own creation – Pop's Block & Tackle White Rum. Other spirits made on site include their Black Creek Gold Rum matured on Charred French Oak and their popular 90% proof, Apple Shine.

Barley & Pie Brewing Company is set to open its first location in Fleming Island in 2024. Co-founded by Clay

County resident Philip Maple, former brew master of Jacksonville's Wicked Barley Brewing Company, this will be Fleming Island's first craft brewery. The brewery will be home to 20 taps and also feature a full liquor bar. In addition to drinks, Barley and Pie will serve food as it is set to be North Florida's first sourdough neo-Neapolitan pizzeria.

Where to Enjoy a Cold Beverage in Clay County

New to Fleming Island, the popular **Corks & Barrels** welcomes guests to enjoy a drink from their carefully curated cocktails list with a variety of wines, cocktails and spirits. Choose one of their own drink creations, like the Maple Rosemary Sour featuring Maker's Mark bourbon, lemon, maple syrup and rosemary or relax with friends over a bottle or glass of wine from the extensive wine list. For a bite to eat, create your own charcuterie board with meats and cheeses served tapas-style for your group. With a variety of cheeses choose from popular favorites like Dubliner Cheddar and Bourbon Maple Goat Cheese. Corks & Barrels hosts special events too, be sure to ask about their wine tastings and whiskey tastings.

And when the sun goes down, make your way to the **Sunset Tiki Bar** overlooking Doctors Lake at the **Doctors Lake Marina**. Enjoy your favorite drink and the breeze from the water as you watch the sun go down. Live musicians and a rotating variety of food trucks are featured daily.

In addition to a wide variety of pizza options, **V Pizza and Tap Garden** in Fleming Island features a large selection of local beers on tap, including seltzers, sours and stouts. With live music three nights a week, trivia night and a musical bingo night, this hot spot also hosts a Tap Takeover every Thursday evening featuring a regional brewery's most popular selections.

Wine lovers, don't miss making your way to Walnut Street in Green Cove Springs to visit **Red's Wine Bar**. Enjoy shareable plates like kettle chips, flatbreads, pretzels and more, grab a

glass of wine and relax in this cozy, friendly spot. And if wine isn't your thing, don't worry, Red's also has a large variety of craft beers available too. Popular nights like ladies' night, bingo, trivia night and live music on the weekends make this a popular spot with the Green Cove Springs locals.

Unique Places in Clay County

By *Carrie McLaren*

There's no shortage of unique people and places when it comes to life in Clay County. From a space shuttle fuel tank (yes, really!), a fresh spring that's actually a community pool and more – there's plenty to explore in Northeast Florida.

Let's take a look at some of the more unique places you can discover during your visit. What's your favorite, unique place to explore in Clay County?

Club Continental – A Luxurious Playground

Located in Orange Park, the Club Continental was once known as the Palmolive Estate (yes, like the soap). In the 1880's, B.J. Johnson, owner of the Palmolive Soap Company, was looking to escape the harsh winters of Wisconsin and brought his family to Orange Park for the winter months.

Their first home, known today as The Winterbourne, now hosts weddings and private events. The family built then built a home next door and named it Mira Rio, now known as today's Club Continental. The home was host to many, riverfront parties throughout the 1920's ranging from social events, equestrian meets, yacht parties and more. In 1966, Mira Rio became a private, member club and renamed to Club Continental. The property is expanded to include seven tennis courts, three swimming pools, and twenty-two guest rooms.

Home to a Space Shuttle Fuel Tank

A replica of a space shuttle fuel tank is probably the last thing you'd expect to see along the St. Johns River in Clay

County, but it's true! Located at the Reynolds Industrial Park, the fuel tank is actually a replica fuel tank that was used for structure and stress testing between 1977 and 1980 at NASA's Marshall Space Flight Center in Huntsville, Alabama.

Upon the closure of the space shuttle program, NASA moved the replica fuel tank to the Kennedy Space Center in Florida and began selling items in 2013 with the now-closed Wings of Dreams Aviation Museum in nearby Starke purchasing this relic. When the business realized the added costs of transporting the fuel tank from Reynolds Park to its museum, approximately 50 miles away, they parked the item at its current location in 2013. The nearby Military Museum of North Florida now owns the relic and is in early talks to move the item to museum property soon.

An interesting and surprising piece of NASA and space shuttle history located in Clay County, the fuel tank is accessible to visitors interested in seeing it up close. It certainly makes for an interesting story – and pictures too.

Spring Park Pool and Spring- Green Cove Springs, FL

Enjoy Swimming in Spring Water in Green Cove Springs

While it may appear that the community pool located at Spring Park in Downtown Green Cove Springs, is just ‘another pool’, however that couldn’t be farther from the truth.

The 135,000-gallon pool is actually spring-fed with the spring water flowing into the west side of the municipal swimming pool and exiting to continue the trek to the nearby St. John’s River. The water surges up from below at a rate of 1,346 gallons per minute and at a constant temperature of 77 degrees.

Surrounding the pool and spring area is a new, two-story building a new two-story pavilion with new bathrooms and a concession area on the first floor. A splash pad, new walkways and wheelchair accessible ramps, and new railing along with signage can be found around the spring. Since its completion in 2017, the pool has become the City’s top attraction for visitors—serving as a centerpiece for City and City-sponsored events.

Penney Farms – Unique Settlers and History

In 1922, as owner of the Golden Rule Stores around the country, now known as JC Penney, James Cash Penney purchased 120,000 acres of unincorporated land with the hopes of creating experimental farming community and a utopian village. He brought homesteaders from all walks of life and provided them with 40 acres of land per family and offered training and equipment to farm on their own. After being successful for two years, they would own the land.

In addition to purchasing the land, J.C. Penney also founded the Memorial Home for ministers and missionaries with low incomes to retire there and prosper. Memorial Home was a tribute to his minister father, wherein a community formed around itself with the incoming settlers. In 1927, the unincorporated Long Branch City was renamed Penney Farms and chartered in honor of James Cash Penney.

Today, the town of Penney Farms is home to a population of nearly 900, of which over 500 are residents of Penney Retirement Community. The town’s retirement community is unique in that it is one of the oldest in the country to feature continuing care from independent homes and apartments to nursing care for differing needs. The community prides itself on being the ‘most giving zip code’ in America with their charitable contributions to the community.

To learn more about this unique community, don’t miss the [Explore Clay](#) blog telling the story of Penney Farms.

THE HOUSES OF HISTORIC MIDDLEBURG

UNITED METHODIST CHURCH

(Circa 1847) 3925 Main Street

This building is one of the oldest Methodist churches in continuous use in Florida. It is a frame vernacular Church built of Hand-wrought lumber and nails. Mr. George Branning later donated the bell which was forged in New York and shipped by steamboat. One early use of the bell was to toll the death of his son, Robert Branning, who died in 1861 at 20 years of age.

OLD MASONIC LODGE

(Circa Late 1800-1889) 3893 Main Street

This building was moved to its present site from where the present Masonic Lodge is now. It is often called "the old lodge." It has an open side gable frame vernacular building built in the federal-period style. It has a one bay gable roof entrance porch on the east side. This yellow painted two-story building is balanced or symmetrical in appearance. It is beside the Clark-Chalker house.

THE FROSARD BUDINGTON HOME

(Circa 1910) 3916 Main Street

This is Historic Middleburg's only example of Queen Anne architecture. It is unusual in that it is a single story with a rounded corner on the veranda porch. The rounded columns are called ionic. The interesting shape of the left-hand gable window when facing the front of the house is called Palladian. In 1927, Mr. and Mrs. F. Budington gave a deed to the Middleburg United Methodist Church which later added the Budington Educational Building. This home is now owned by Mrs. Pat Mueller.

THE BUDINGTON HOME

(Circa Late 1800's)

Originally at 3913 Main Street

This is a white two-story house with a wide L-shaped porch which extends out to an area which can be used now as a carport. The shutters on this home are functional. This frame vernacular home is thought to have been moved to its present sit by rolling it on logs from across the street where the F. Budington home is now. This home is simpler in appearance on the outside than the Frosard Budington house across the street. This house has been relocated to the Main Street Park.

DR. G.E. ADAMS & DR. STONE HOME

(Circa Early 1900's) 2145 Wharf Street

This building is a small frame vernacular home. It has decorative wooden trim on it. There is wooden "gingerbread" trim at the top of the porch columns. The porch with railing is on the left side of the house when facing the front. This building served as a Doctor's office and home in 1914. Later, the house became a private residence.

THE CLARK-CHALKER HOUSE

(Circa 1835) 3891 Main Street

This is the oldest building in Middleburg. It is a white two-story columned house with a white picket fence. This open side gable frame vernacular home was built for Capt. Matthew Clark and his staff. They were with the U.S. 2nd Dragoons stationed at Ft Heilman. During the Second Seminole Indian war, the house was headquarters for General Winfield Scott. Martha Ann Chalker later occupied the house for 82 years until her death in 1936.

THE HADDEN HOME

(Circa 1912) 3887 Main Street

This is a colonial revival home with a balanced front called a symmetrical façade. This is a two-story home with round columns. It has a tin roof like several of the historic homes in the historic district. An interesting aspect of this home is that the decoration above the front door was originally made from an old bed headboard. This is called a decorative entrance Pediment.

THE BARDIN HOME

(Circa 1888) 3881 Main Street

This is Middleburg's only example of Italian architecture. This style is more common in other areas of the country than in the South. There is a central cupola which is a small structure built on to the house. It is often used as a lookout and for air supple ventilation. Mr. Henry Bardin's house has two wide porches across the front of the hoe. It also has Victorian style gingerbread trim. The Bardins used to have square dances there many Saturday nights.

THE STEWART HOME

(Circa 1890-1911) 3895 Main Street

This is Middleburg's only example of center gable frame vernacular architecture. It is a white two-story home with a porch. It has a front facing gable wall dormer window. The home was built by George Chalker. As Mr. Chalker had a home on wharf Street, he rented this house to Mr. and Mrs. G.P. Stewart. The Stewarts moved from the Gin House Landing area where they had a turpentine mill.

THE GEORGE CHALKER HOME

(Circa Late 1800's) 2160 Wharf Street

This white two-story home sits on a large area of land. It is Colonial Revival architecture which features a flat roofed porch with a railing above which is supported by square columns. There is a dormer window on the roof on the front of the house. A vine-covered retaining wall fronts the home on Wharf Street. The Chalker family was related to many families in Middleburg. It is presently under-going renovation and restoration.

THE GEORGE HASKELL HOME

(Circa Late 1800's) 3894 Main Street

This frame vernacular home was built by Mr. Haskell as a replica of his home in Salem Mass. He was stationed with the Union troops during the Civil War in the area. He was attached to the Paymaster Corps. He later acquired 500 acres of land. The house is three stories and has been remodeled and kept in good condition. It is white with a decorative eagle on it.

THE BARTHLOW HOME

(Circa 1800's) 3884 Main Street

This is a frame vernacular home, which is a typical wood frame home of the period. It is a small home with a tin roof and green metal awnings over the porch. Homes during this period were built with fireplaces for heat as is this one. This home has a metal fence. Some of the other homes have wooden, brick, metal or stone fences in front of their homes. Some do not have fences. This home remains in the Barthlow family to this day.

LONG HOUSE

(Circa 1890) 3858 Main Street

This home was purchased by Edward Long for his parents in 1896. It was an example of the open side gambel frame vernacular style. This building features drop siding exterior wall fabric and an exterior field stone chimney stack.

Green Cove Springs Historic Walking Tour

- 1 Spring Park - The Spring tapers down with clear visibility to a depth of 31 feet up from which flows 78 degree mineral water filling the pool at 1300 gallons per minute for chemical free swimming in the summer. In the late 1800's many came to partake of the medicinal waters and some even stayed. Today the park includes the pool, the spring, playground, cooking pavilion, numerous gazebos, picnic tables, a stream, fishing pier and boat slips with water and electricity on the St. Johns River.
- 2 215 Spring Street - City Hall is seen west of the park. It was completed in 2004 on the site of the Qui Si Sana Hotel which faced the spring (c. 1907 meaning "Here is Health"). The architectural features of City Hall have similarities of the Qui Si Sana. Prior to the Qui Si Sana, the same site was occupied by the Clarendon Hotel (1870 - 1900). Guests of the Clarendon had exclusive use of the spring.
- 3 103 S. Magnolia Avenue - This frame vernacular style is characteristic of one of the most popular building styles in this region during the late 1800's. This building was used as a cottage for the Clarendon Hotel as well as the residence of Dr. Joseph Applegate who prescribed and dispensed the "medicinal" spring water to his wealthy northern clientele. It is in current use as the River Park Inn Bed and Breakfast.
- 4 219 Spring Street - Built in 1887, this home was, for many years, in the family of Judge Rivers. Notice the design pressed into the metal roof and the wonderful wrap around porch.
- 5 Footbridge - Across Spring Run connecting the North and South sides of the park, this bridge was built in 1988 by a Hungarian immigrant and Vietnam War Army veteran, Antal Molnar and his son Antal Jr. Note the replica of the old city seal in the center of the intricate iron work.
- 6 Spring Run is the stream from the outflow of the spring-fed chemical-free community pool. "Friends of the Park" were responsible for the large riverfront gazebo built in 1984 and still used regularly today for weddings and other events. Cross the bridge and take the sidewalk along St Johns Avenue.
- 7 14 North St. Johns Avenue - Built circa 1897 and known as the home of Captain C. E. Garner of the Independent Line Steamers that operated the May Garner riverboat between here and Jacksonville in the early 1900's, this home has been lovingly restored in the Italian Renaissance style by its current owners.
- 8 15 N. St. Johns Avenue - the winter residence of the Carl Schultz family of NY; it was later known as the Hallock Hotel.
- 9 218 Palmer Street - The original home of Dustin Page is still maintained as a private residence.
- 10 115 St. Johns - Built in the Italian Renaissance style as his family's first residence, W. M. Hoyt, a Chicago grocery chain magnate was one of many wealthy northerners who invested in real estate in Green Cove Springs in the late 19th century. It later became known as the Riverview Hotel.
- 11 200 N. St. Johns - Having the means to do so, W. M. Hoyt later built this house designed by architect, Mellon Greeley, in 1917 for his family in the Mediterranean Revival style with features such as the stucco exterior and tile roof. The building has now been converted to condominiums.
- 12 400 St. Johns Avenue - St. Mary's Episcopal Church, built in 1979, continues to serve an active parish today. It is built in Carpenter Gothic Style. Note the small doors beneath each window. They are more often used for ventilation but they would provide escape in case of fire. On the same property notice the Fellowship Hall. It was originally one of 5 army chapels at Camp Blanding built in the early 1940's and later relocated to this site for the church.
- 13 405 St. Johns Avenue - The rectory for St. Mary's Episcopal Church, circa 1906, was erected with funds from the Morton Fox Memorial Fund, according to the historical marker on the left eave of the house.
- 14 208 Park Street - One of three still existing homes in town originally built for members of the Borden family of condensed milk fame.
- 15 502 North Magnolia Avenue - Called "Villa Cottage", this home was built in 1880 by John C. Borden, son of the inventor of condensed milk. The tower on the right was used for judging the horse races which occurred on Magnolia Avenue. It was later used as the first home of the Women's Club better known as the Village Improvement Association (VIA).
- 16 300 Gum Street - First Presbyterian Church, circa 1892, is a detailed carpenter gothic style church. Designs on the hand forged hinges as well as the shapes and colors of the windows have special meanings. The Friendship Hall was completed as an addition in 1995.
- 17 303 North Magnolia Avenue - Circa 1884, Queen Anne style, rumors have circulated for many years about the ghosts in residence!
- 18 312 Center Street - This beautifully restored 1890's residence was most recently an art studio.
- 19 326 Walnut Street - Green Cove Springs got its own Art Deco style theater in the mid 1930's. The owner in 1936, R. C. Wilson, relocated the business from 420 Walnut Street where it was known as the Palace Opera House and Motion Picture Show. In 1939 a license permit was issued for the Clay Theater to Frank Bryant. Today it is the Clay Theatre, An Event Venue.
- 20 400 Block of Walnut Street - Walnut Street developed early as the main street for business in town because it led to the town's general landing at the east end where the fishing pier is now located. In 1882 there was a barbershop, a cobbler, several grocery stores, 2 churches, a bakery, a photography shop and several hotels on Walnut Street.

21 17 North Palmetto Avenue – Built in 1915, this is the most significant social building in Green Cove Springs. This land was donated to the VIA for the building in 1885 by Penelope Borden, of condensed milk fame. It is Spanish Colonial Revival style, designed by architect Mellon Greeley. A Florida Heritage Site, it still serves the community as the Village Improvement Association.

22 509 Walnut Street - is preserved as the home-place of Ma and Pa Gustafson of Gustafson Milk fame.

23 604 Walnut Street – (Council on Aging) Grady Smith bought the Coca Cola Operation from E. E. Geiger and moved it to this location which was built in 1946. At the time of the plant closure in 1971, 1,160 cases of the 6.5 ounce bottles were produced in an 8 hour day compared to 12,000 cans of canned coke per hour in the Jacksonville plant. Since the 1970's the building has a center for Clay County seniors.

24 615 Walnut Street – First Baptist Church was constituted in 1889 and this church was constructed 1916. The stained-glass windows were imported from Germany prior to WWI.

25 700 Walnut Street. Built in 1890, this residence is the best example of the Queen Anne style in town. Note the intricate stick and spindle work on the porches and gable ends.

26 707 Walnut Street – Saved from demolition in 2005 when the county purchased the property next to the Council on Aging for parking, this building, circa 1890, was moved diagonally across the street. It was formerly the home of Senator Slater Smith.

27 715 Walnut Street – Originally a residence, this 1909 frame vernacular has been restored and used over the years for a number of commercial purposes.

28 23 S. Green Street & Walnut – Now home to the Clay County School Board, the H. D. Long Building was a WPA Project in 1937 designed by architect, Roy A. Benjamin. It served as Clay High School for many years.

29 915 Walnut Street – The Historic Triangle Complex includes the restored Italian Renaissance style courthouse, circa 1890, which has been restored for the use of Family and Teen Court. The Annex on the left houses the Clay County Historical Museum. The museum also houses a fine railroad collection, train station and caboose.

On the north end of the triangle is the 1894 Jail. The jailer's quarters have been restored to house the Clay County Archives and Sheriff's Museum.

30 627 Spring Street Circa - Typical construction from the late 1800's this home has a regular rectangular floor plan and a balloon frame structural system with two stories and a steep roof to accommodate a sizeable attic. Note the porches here. Porches were a common feature and decoration often included ornamental woodwork, brackets, patterned shingles, turned porch columns and exposed rafter ends under the eaves. The original balcony porch here has interesting, upturned detail on the upper rail.

31 501 Spring Street - Thought to have been built about 1845, the architecture is Frame Vernacular with elements of 2nd Empire with mansard roof and shingle siding. Known for years as the Jensen house where a local eye doctor practiced his craft, the building was renovated in 1993 for commercial use as a funeral home. The chapel was added in 1997.

TOWN OF ORANGE PARK HISTORIC DRIVING TOUR

The Town of Orange Park was founded in 1877 by the Florida Winter Home and Improvement Company. The property was subdivided into building lots and small farm tracts, and the present street system was laid out which included Kingsley Avenue, River Road and Plainfield Avenue. Enjoy a glimpse of the past on this historic driving tour. Please remember most locations are private residences and should be viewed from the street. The Keystone Heights Heritage Commission presents:

Walking Tour of Historical Homes

Keystone Heights was established in 1923 by the Lawrence Developing Company. Its owner, J. J. Lawrence, was from Pittsburgh, Pennsylvania. The town was to be a vacation spot and health benefits from recreational opportunities, climate and clean water were highly emphasized in sales brochures. Keystone Heights was on the Chatauqua RR Circuit. Citrus and pecan trees were also touted as good investment possibilities. Frank Walrath, a cousin, was head of sales for the development company.

The town was laid out in 1923 by an unrelated C. Ray Lawrence, also from Pennsylvania, who was a retired civil engineer. Streets and alleys as planned then, exist today.

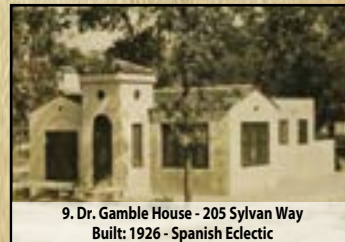

Keystone's earliest homes, including that of J. J. Lawrence, are thought to be mail order catalogue homes. Some evidence exists in the form of handwritten labels and model numbers on framing. The homes in this tour are from the first building period (1921-1929). Initial development stopped when the stock market fell.
