**Why Public Notice Should Remain in Newspapers**

Along with open meeting and freedom of information laws, public notice is an essential element of the **three-legged stool** of government transparency.

**Newspapers** remain the primary vehicle for public notice in all 50 states.

This is not about "newspapers vs the internet". It's newspapers and newspaper websites vs government websites and newspaper websites have a much larger audience. Moving notice from newspapers to government websites would reduce the presence of public notices on the internet.

Since the first U.S. Congress, public officials have understood that newspapers are the best medium to notify the public about official matters because they contain the **essential elements of public notice:**

- Accessibility
- Independence
- Verifiability
- Archivability

**Publishing notices on the internet is neither cheap nor free**
