Why Public Notice Should Remain in Newspapers

Along with open meeting and freedom of information laws, public notice is an essential element of the three-legged stool of government transparency.

Since the first U.S. Congress, public officials have understood that newspapers are the best medium to notify the public about official matters because they contain the essential elements of public notice:

- Accessibility
- Independence
- Verifiability
- Archivability

Newspapers remain the primary vehicle for public notice in all 50 states.

This is not about "newspapers vs the internet". It's newspapers and newspaper websites vs government websites and newspaper websites have a much larger audience. Moving notice from newspapers to government websites would reduce the presence of public notices on the internet.

Publishing notices on the internet is neither cheap nor free.

HPV can cause 6 types of cancers

Getting the HPV vaccine is one of the best ways to prevent these cancers.

The CDC recommends the HPV vaccine for children as young as 9 and for people up to age 26 if not vaccinated when younger.
