ESTIMATES!

The family of Terry Sorensen

is sincerely grateful for all the kind expressions of sympathy during this difficult time. We wish to thank everyone who sent a card, offered food, came to the services, and gave memorials, plants, or flowers.

For the funeral at Holy Family Church, the special music of Trumpeter's Lullaby by Fr. Paul Kelly and the instrumental music selections of Biblical Brass were all beautiful and a great tribute to Terry. Also, our niece Michelle Skoog as organist and vocalist was amazing.

We also thank Kirby's Cafe for catering and the church circle for all their work serving dinner and providing dessert bars.

Special thanks to Alan, Tracey, and Andy at Martin-Mattice Funeral Home for all their guidance and compassionate care and also to Palo Alto County Hospice for their visits at our home, along with Dr. Patton, who guided Terry and Hospice.

We extend heartfelt appreciation to all.

The Sorensen family

Making the Transition from Hospital to Home Utilizing Skilled Care

Skilled care is a beneficial option for qualifying patients who no longer require acute care, but who are not quite well enough to return home. PACHS offers 24/7 skilled care, access to a physician, physical and occupational therapy, and management of medications to those who meet the required criteria for skilled care services. This program allows patients to continue receiving care as needed, and acts as an excellent alternative for those in the transitional stages between hospital and home.

Call 712-852-5500 to learn more about PACHS Skilled Care Program and how we can serve your needs.

We can stop HIV, Iowa—
 by staying up-to-date on recommended screenings!

Health screenings help to identify diseases and chronic conditions before symptoms occur. The CDC recommends:

- ▶ All people ages 13-64 should be screened for HIV at least once in their lifetime.
- ▶ All people ages 18 and over should be screened for hepatitis B at least once in their lifetime.
- ▶ All people ages 18 and over should be screened for hepatitis C at least once in their lifetime.
- ▶ Pregnant women should be screened for HIV, hepatitis B, and hepatitis C during each pregnancy.

Talk to your healthcare provider about getting screened! Forgot if you've had a screening? Ask them to check your records!

Screenings are important because HIV, hepatitis B and hepatitis C don't always have noticeable signs or symptoms. Some people should be tested **more often**—visit the web resources below to learn more!

Scan here to learn more about HIV screening recommendations—
 Or visit <https://cdc.gov/hiv/testing/>

Scan here to learn more about hepatitis B screening recommendations—
 Or visit <https://cdc.gov/hepatitis-b/testing/>

Scan here to learn more about hepatitis C screening recommendations—
 Or visit <https://cdc.gov/hepatitis-c/testing/>
