Thank you

for all the support over the last 9 years at The Haack's Nest. We have had the best customers and staff and we couldn't have done it without you! A special Thanks to all our staff that have stuck it out with us through the years. You all have become our family and always will be. And, a big "Thank You" to Crystal Eggers for doing all the paperwork, payroll, etc. That was more help than you will ever know. Please support the new owners of Eloasis, who will be opening as soon as they can. Thanks for all the great times and memories

PACHS offers Low-Dose CT Lung Cancer Screenings!

If you are a long-term heavy or former smoker aged 50 or older, or have other high-risk factors that may contribute to the development of lung cancer, then a low-dose computed tomography (LDCT) lung cancer screening at Palo Alto County Health System may be right for you! Lung cancer is the second most common cancer and the **number one** cause of cancer death in the United States. Yet **more than 80 percent** of lung cancers have a chance to be cured if detected early. The lung cancer screening at PACHS is a fantastic tool to help detect lung cancer at its earliest, most treatable stage. It is also the only test that has been proven to detect lung cancer at early onset and improve survival rates. Talk to your doctor today about a lung cancer screening referral!

A physician referral is required for a CT scan. For more information, please call the PACHS radiology department at 712-852-5500.
