By Diane Weiland The Supervisors opened their Tuesday 8:00a.m meeting with the Pledge of Allegiance. After approving the Agenda, Minutes from the February 6 meeting, County Reports,

Claim and Drainage Claims the Supervisors welcomed Conservation Director Ron Allen to the meeting. Allen was present to ask the Board to consider approving an additional Park Technician for July. He stated that any person hired would be on probation for six months and then reviewed for full time. The yearly salary would be \$45,000. Allen said that he checked with surrounding counties regarding Conservation staff numbers and salaries. He also told the Board that Palo Alto County Conservation has the most acres that they oversee and they are the least staffed. Currently Conservation is at three full time workers outside, one part time and three seasonal. In order to make the full time hire more convincing Allen said that he would drop one seasonal worker which would save \$10,000. Allen commented

a lot of his employees. He also added that he has some ideas for raising funds for Conservation. He talked about grazing in some areas. Recently Allen was approached by IDALS to do a biological control study to introduce four new species of wasps to the area. Allen said he declined because he wants to keep conservation native. That was important to him.

Before Nick Frank left

the meeting, he told the Supervisors that DD21 along rendering works road is plugged. After some discussion the Supervisors told Frank that he needed to file a petition and they can then determine what is needed for DD21. The Board asked Frank to attend next week's meeting to further discuss the drainage problem.

Before the Board adjourned Supervisor Wirtz moved to approve the Class B Alcohol License & Outdoor Service for Happy Campers LLC at Lost Island. The motion was seconded by Supervisor Graettinger and all voted in

Following this meeting the Supervisors held a joint meeting with the Emmet County Board of Supervisors in Graettinger at River Valley Telecommunications. That is an annual meeting where both Boards share what they are doing and accomplishing.

Interment was at Evergreen Cemetery in Emmetsburg,

Alden Michael Hermansen was born in Emmetsburg, Iowa on January 29, 1946 to Alden and Catherine (McCoy) Hermansen. He spent his childhood fishing and boating all over Five Island Lake, helping his father run a bait and tackle business. He graduated from Emmetsburg High School in 1965. Mike was a natural athlete, playing football into college at Mankato State and basketball in high school, college and the Air Force.

Mike married his high school sweetheart, Pamela Kay Potter on June 10, 1967. Mike and Pam welcomed their first born child, Nora Christine, in December 1968 while stationed at Holloman Air Force Base in Alamogordo, NM. Following Mike's service, the family moved to Emporia, KS where Mike earned his degree at the College of Emporia. Mike and Pam returned to Emmetsburg and had two sons: Adam Michael in 1978 and Daniel James in 1983.

Mike was a well-respected businessman and he excelled at sales and management. In 1974 he started a long career in the truck equipment industry with a sales position at Dur-a-Lift in Emmetsburg. He went on to hold roles with Iowa Mold Tooling in Garner, IA and Time Manufacturing in Waco, all his heart. That was obvious TX prior to founding Utility for all to see. Their marriage

He was instrumental in the addition of Grace Estates. Mike was elected and has served a number of years on the Emmetsburg City Council, where he found much value in the work. Mike was always ready to hear someone's point of view, whether or not it was the same as his. Returning to his roots at Bethany Lutheran Church, Mike rekindled his active membership. Bethany was truly his home church, baptized, having been confirmed and married there.

And poker...cards were always a pastime for Mike, but later in life he stepped up his game. He looked forward to the Senior World Series of Poker each year in Las Vegas, and he had a regular game that he played in most weeks. It was also common to find him in his office with his iPad, watching the pros play.

From: Roger Walker

Where are the brains of this operation?

I hear the president had the Army Corps of Engineers open up a dam to send water to help with the California fires. The release was 150 miles north of Los Angeles and had no way to get there. Billions of gallons of water from snow melt dumped into fields that are to be used in the summer for growing crops in the San Juaquin Valley. Now it won't be there when needed. 'My comment: Swift Move Exlax, maybe now you can make it rain this summer when these people need it.

Also, I watched 75-80 immigrants being run up the ramp of a Military Cargo plane with the cameras rolling. Make sure to get the Ice logo on all of the jackets worn. Just like loading animals for sale, this plane holds 300 tons of cargo and the trip to Guatemala costs about \$800,000 for maybe

80 people. How is this cost effective? It just makes good TV. Then let's have Dr. Phil go on raids with us for more good show. The next day lets have the new Sheriff Kristie in town with her velvet cowboy hat and vest also for show. What a Joke!!!

Is this what you voted for?? I saw a press conference with a podium and half of a red carpet behind with soldiers in arms at both double doors open for I thought maybe Putin to come out but it was King Donald who came out to tell his lies. One was that the plane and helicopter crash was caused by DEI hire. In other words, only white men are qualified for these jobs. And little compassion for the victims, many still in the river. When asked if he was going to visit the crash site he said, "No, No the water, the water. What you want me to go swimming? Very diplomatic and what empathy.

Then what about him lying to everyone that he knew nothing about Project 2025. Now it is becoming our government, a lot of his cabinet picks helped write the 900-page plan or worked at Fox news. I think a lot of them forgot to get in line when the Lord passed out brains. JD Vance has to vote to pass a lot of them. As soon as they start the job, they do just exactly what they told Congress they wouldn't. All to help out Dictator Don. Hope some Congress people get off their knees, stop worrying about a primary and stand up to him NOW. If he gets his way you won't be needed next year. Kash Pattel is up for FBI director. Last year he got paid \$25,000 for helping a Russian film maker make a propaganda film about the FBI. He also has an enemy list of 60 people or more to go after once he is put in office and plans to shut down the FBI. This should give us all pause. What a choice for this office. This is also to help the revenge tour.

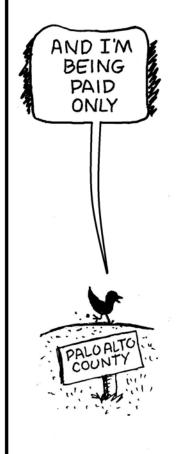

And then let's get to the heart of this: Elon Musk donated \$240 million dollars to elect Trump. Plus he used X to spill a lot of untruths and is now unelected but digging into personal information of everyone and closing down agencies. Locking doors as he and his group of young hackers dig over personal business that he has no right to and it is against the law. But these people think laws are for everyone else not them!! If this doesn't stop, we are headed for a government just for a few white men and to hell with the rest of us. People need to get their heads out of their hindends and realize we were lied to big time. We don't matter!!

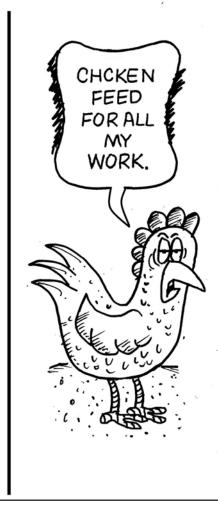

with making a TV show. Let's put an end to this terrible movie. Unemployed people pay no taxes and neither do

All that he is interested in is getting even with enemies and making himself rich along

Who are the Greatest Athletes of All Time?

by Drew Hansen

sports, there are tons and tons of conversation about who the GOAT (Greatest Of All Time) is. Most of the time, the conversations stay within a single sport. For example, when you hear folks talk about who the GOAT is in the NFL, it usually boils down to Tom Brady, Joe Montana, and most recently Patrick Mahomes. The NBA's GOAT conversation always boils down to Michael Jordan and LeBron James. The GOAT conversation for the MLB has what I would say is the largest spectrum. You've got Babe Ruth, Barry Bonds, Ted Williams, and loads of other great players who get

mentioned. Recently on Facebook, I saw a post that was headlined "Top 10 Greatest Athletes of All Time" and the post was made by All Sports Culture.. This list incorporated every sport. From football to soccer to the olympics.

Here is the list: 1) Wayne Willie Mays could also make Jack! In this day and age in Gretzky, 2) Tom Brady, 3) Michael Phelps, 4) Lionel Messi, 5) Usain Bolt, 6) LeBron James, 7) Michael Jordan, 8) Muhammad Ali, 9) Tiger Woods, 10) Christiano

Ronaldo. Now this list could very possibly be what is called "rage bait". Rage bait is posting or saying something that you know will make people angry in order to gain reactions and interaction. I'm not angry with this list, I just have a few bones to pick with

you notice how there were zero baseball players on that list? Like I mentioned before, there are a lot of players who get brought up in MLB's GOAT conversation. However, this list says athletes. And if we're going by that, I would call Rickey Henderson the best athlete to ever play baseball. He was fast, he could hit, he could field. I believe Rickey deserves a spot on this list. the list, but we've only got ten

I don't have a problem with Wayne Gretzky being number one on their list. He was a great hockey player, and hockey is a tough, physical sport. But if Gretzky is number one, Alex Ovechkin deserves a spot too. Ovechkin, who is still active, (at the time of writing this) is only 16 goals away from breaking Gretzky's all-time record for goals in an NHL career. The question is, who gets knocked out of the top 10 for Ovechkin? I'll get back to

it in a bit. One could make an argument that if Tiger Woods made the list, why didn't Jack Nicklaus? Nicklaus has more career wins, more major wins, more runner-up finishes, and more major runner-up finishes than Tiger does. The difference is the competition they played against. Tiger dominated golf against the best players the world has ever seen. Tiger stays, sorry

The same argument could be made with Muhammad Ali getting a spot, but not Floyd Mayweather. Mayweather's record is 53-0 with one no decision. Ali's record is 56-5. The big difference is Ali fought whoever, whenever. The politics of boxing did not matter to Ali. He pioneered the sport. Ali stays, Mayweather

Now that I've got the bones picked, I'm going to give you my list of the top ten greatest athletes of all time. Here we go. 1) Michael Phelps, 2) LeBron James, 3) Wayne Gretzky, 4) Lionel Messi, 5) Muhammad Ali, 6) Tom Brady, 7) Michael Jordan, 8) Rickey Henderson, 9) Tiger

Woods, 10) Alex Ovechkin Feel free to tell me how I'm wrong or any bones you have to pick with the list I have presented. I'm open to

The E-Hawk defense stifled the Warriors in the second quarter, holding them to just 7 points. But the Warrior defense also gave the E-Hawks some trouble. At halftime, the E-Hawks' lead was 34-22.

7th Grade Boys Basketball

Coach Ben Thomsen

"The seventh grade boys basketball team finished with a record of wo wins and eight losses. We faced some good teams this year and also lost some close games. We gained great experience by playing against good teams and also learned that finishing and competing

Rolon, in her first season of wrestling, willed her way to a 15-0, undefeated season.

Three of the four 7th grade wrestlers were first year wrestlers and each one of them got better every time they suited up for a tournament. Mariah Biddle won 8 of her 12 matches this year and was always accepting of coaching advice. Stella Bay went 8-5 and got more and more excited and confident about her tournaments as the season went on. Mariah Rolon came on strong in the 2nd half of the season winning 5 of her last 8 matches, giving her a season record of 5-9. The final 7th grader on this year's team was Sawyer Hasbrouck, whose physical strength and aggressive style helped her to an 11-0 record on the season. The Managers for this team are also 7th graders familiar with

the sport of wrestling, which

made it easy to train them for their job. Finnley Klaus and Harper Higgins traveled with the team to their meets to film matches and keep records for the coaching staff.

One of the most important things to note about this team is that every girl is a multisport athlete. You will or have seen them on the volleyball court, softball field, basketball court, on the track, running cross country and even on the football field. These girls will be fun to watch and we will be proud to have them represent Emmetsburg as they get older.

This year's coaches were Head Coach Dan Hewitt who was assisted by Austin FLynn, Cole Johnson, Jess Biddle and former E-Hawk Anika Stearns, who got her coaching license to work directly with our young runners and wrestlers.

8th Grade Boys Basketball

Coach Ted Riley

"As a team our 8th grade boys basketball team was able to accomplish all of the goals we set forth at the beginning of the season. Each individual improved their skills, grew as a team member, learned life lessons, and had fun doing it. As their coach I was able to provide an environment where important social and emotional skills such as Responsibility, Goal Setting, Teamwork and Perseverance were taught. It's been an amazing journey watching these talented individuals come together to form an Undefeated Team. Perfection is rarely achieved in sports. When it does happen it should be recognized and celebrated!"

Middle School Girls Wrestling Coach Dan Hewitt

The Emmetsburg Middle School Girls Wrestling team amassed an impressive, combined, record of 106-36 for the 2024 season. This group of eleven girls worked hard through their season to get better each time they wrestled. The team was primarily composed of first and second year wrestlers, which makes their season that much more impressive. This was a very fun group to coach and watch compete.

The 8th Grade class consisted of 7 girls that all returned from last season to compete again this year. Abby Biddle is one of the most energetic athletes on the middle school team, and she compiled a record of 10-1 on the season. Ellisyn Kaneer

wrestled her way to a 5-3 record for the season, she is a hard worker and made a lot of gains at practice to get better throughout the season. Jaelyn Hewitt went 8-5 this season and her dad says that he is very proud of her gains and improvement over the past three years. Paytn Haack put together a 14-2 record this season. Paytn is a hard worker and takes advantage of a lot of opportunities to get as much mat time as she can. Miley Albrant made one of the biggest improvements from her previous season, as she wrestled her way to an 11-4 record this year. MaKenna Burns was able to compete in more tournaments this season and put together a really good season, with a record of 11-3. The final 8th grader on the team made the switch from filming matches last year to wrestling matches this season. Solara

Use a piece of banana peel laid pulp-side-down over the splinter and cover it with a bandage. Leave it on overnight if possible. It has something to do with the enzymes in the peel as it ripens, but it will help draw out the splinter. The peel needs to be nice and ripe, and it might take a couple of tries."

Calculating the price of eggs

Here we go again. Because of the avian influenza, many hens have had to be culled, leaving fewer to produce eggs. Supply and demand being what it is, the price of eggs has jumped up again because there are fewer eggs.

A recent trip to the store was a shocker. In the space of less than 10 days, a dozen eggs at my local store had shot up over \$2 ... to a whopping \$6.95 for large eggs. This wasn't even extra large or jumbo.

I almost walked away without buying eggs. Instead, I pulled out my calculator and did the math. At that price, each egg cost 58 cents. A two-egg omelet would, therefore, cost \$1.16 for the eggs, and would provide 12 grams of protein. And it was then I realized some-

thing: For all the complaining I've done about the price of eggs, maybe the price really isn't so bad when it's calculated that way. To be considered: There is tuna with

a high protein level, but we're told not to eat it every day because of the mercury in many types. There's rice, but we shouldn't have that every day either because of the arsenic in it. (And how many of us adhere to the 1/4-cup serving size?) Beef is a protein powerhouse, but where are we going to get a serving of beef for \$1.16? Not at my In my hunt for "cheap protein," I dis-

covered cottage cheese. One 1/2-cup serving gets us 14 grams of protein and costs 72 cents. Two tablespoons of peanut butter gets us 7 grams of pro-

Then there are beans, lentils and oatmeal, and a snack of cheese with a few grapes and crackers.

So, instead of looking at the cost of an item (and cringing), maybe we need to look instead at the cost of a serving.

Animals can also be allergic to humans.

The "Trembling Giant" in Utah's Fishlake National Forest includes over 47,000 quaking aspen trees that share the same root system. Some scientists estimate it's close to a million years old.

At 2.89 billion monthly users, Facebook overshadows China's (1.4 billion) and India's (1.3 billion) populations.

Baby elephants suck their trunks for comfort. They're just like human newborns making funny faces, except a tad bigger.46

About 700 grapes go into one bottle of wine. That's approximately 2.6 pounds, if you're wondering how much "fruit" you get when you uncork your favorite red.

Giraffes are 30 times more likely to get hit by lightning than people. True, there are only five well-documented fatal lightning strikes on giraffes between 1996 and 2010. This is 30 times the equivalent fatality rate for humans.

A chicken once lived for 18 months without a head. Mike the chicken's incredible feat was recorded back in the 1940s in the USA. He survived as his jugular vein and most of his brainstem were left mostly intact, ensuring just enough brain function remained for survival. In the majority of cases, a headless chicken dies in a matter of minutes.

The world's oldest dog lived to 29.5 years old. While the median age a dog reaches tends to be about 10-15 years, one Australian cattle dog, 'Bluey', survived to the ripe old age of 29.5.

The next time you call something "as American as apple pie," you might want to consider the fact that neither apple pies nor apples originally came from America. Apples are in fact native to Asia, and the first recorded recipe for apple pie was actually written
