Thanks for BEING THERE...

The family of Gary Clark

would like to express their thanks to all friends and family for the cards, money, gifts, food and flowers, along with any other donations & a special thanks to Tracie and Allan Mattice, the ambulance crew, Sheryl Darling, and Darrin Adams for the kind expressions and sympathy shown from his death. Thank you for all of your kindness in remembering Gary Clark with your donations.

Sending love from our hearts

Why Public Notice Should Remain in Newspapers

Along with open meeting and freedom of information laws, public notice is an essential element of the three-legged stool of government transparency

Since the first U.S. Congress, public officials have understood that newspapers are the best medium to notify the public about official matters because they contain the essential elements of public notice:

- Accessibility
- Independence
- Verifiability
- Archivability

Newspapers remain the primary vehicle for public notice in all 50 states

This is not about "newspapers vs the internet". It's newspapers and newspaper websites vs government websites
and newspaper websites have a much larger audience. Moving notice from newspapers to government websites would reduce the presence of public notices on the internet

Publishing notices on the internet is neither cheap nor free

Stay Safe From Shingles

1 in 3 people will get shingles. Prevention is possible.

Shingles can cause a painful skin rash and lead to serious health problems, such as long-term nerve pain and vision loss. Shingles stays dormant in your nervous system after you recover from chickenpox. Your risk of shingles increases with age.

The shingles vaccine is the best way to protect against the virus and its complications. The shingles vaccine is recommended for:

- Adults 19 and older with weakened immune systems.
- Adults 50 and older.

Ask your healthcare provider about the shingles vaccine.
