Finding a great rate on a CD is nice, but to get the most from your CDs, you need a strategy. Get in touch to learn more.

*Annual Percentage Yield (APY) effective 04/18/24. CDs offered by Edward Jones are bank-issued and FDIC-insured up to \$250,000 (principal and interest accrued but not yet paid) per depositor, per insured depository institution, for each account ownership category. Please visit www.fdic.gov or contact your financial advisor for additional information. Subject to availability and price change. CD values are subject to interest rate risk such that when interest rates rise, the prices of CDs can decrease. If CDs are sold prior to maturity, the investor can lose principal value. FDIC insurance does not cover losses in market value. Early withdrawal may not be permitted. Yields quoted are net of all commissions. CDs require the distribution of interest and do not allow interest to compound. CDs offered through Edward Jones are issued by banks and thrifts nationwide. All CDs sold by Edward Jones are registered with the Depository Trust Corp. (DTC).

We can stop HIV, Iowa— by protecting our sexual health through talk, test, treat.

talk

Talk with your partner before having sex. Talk about when you were last tested and suggest getting tested together.

Talk to your healthcare provider about your sex life and ask what STI tests you should be getting and how often.

test

Get tested! It's the only way to know for sure if you have an STI or HIV.

Many STIs don't cause any symptoms, so you could have one and not know.

If you're not comfortable asking your regular provider for an STI or HIV test, find a clinic that provides free or low cost confidential testing.

treat

All STIs, including HIV, are treatable. If you test positive for an STI, work with your healthcare provider to get the right treatment.

Ask about partner services to get your partner tested and treated.

If you test positive for HIV, your healthcare provider or testing location will help connect you to treatment and resources!
