CDs may seem uninteresting, but that's their superpower. As an investment vehicle, they offer competitive rates while generally being predictable and dependable. Call us to learn more about our boring CDs with not-so-boring rates.

*Annual Percentage Yield (APY) effective 07/25/24. CDs offered by Edward Jones are bank-issued and FDIC-insured up to \$250,000 (principal and interest accrued but not yet paid) per depositor, per insured depository institution, for each account ownership category. Please visit www.fdic.gov or contact your financial advisor for additional information. Subject to availability and price change. CD values are subject to interest rate risk such that when interest rates rise, the prices of CDs can decrease. If CDs are sold prior to maturity, the investor can lose principal value. FDIC insurance does not cover losses in market value. Early withdrawal may not be permitted. Yields quoted are net of all commissions. CDs require the distribution of interest and do not allow interest to compound. CDs offered through Edward Jones are issued by banks and thrifts nationwide. We can stop HIV, Iowa—
 by finding the HIV prevention methods that work best for us!

- Find a health care provider you feel comfortable talking to openly about your sexual health.
- Make prevention & testing part of your journey. Getting tested for HIV is the only way to know your status!
- Practice safer sex. Use condoms and choose sexual activities with a lower likelihood of passing on an infection.
- Get in care. Stay in care. If you're living with HIV, getting and keeping an undetectable viral load helps you stay healthy and prevents transmission to your sex partners.
