A Help Button Should Go Where You Go!

To be truly independent, your personal emergency device needs to work on the go.

MobileHelp® allows you to summon emergency help 24 hours a day, 7 days a week by simply pressing your personal help button. Unlike traditional systems that only work inside your home, a MobileHelp medical alert system extends help beyond the home. Now you can participate in all your favorite activities such as gardening, taking walks, shopping and traveling all with the peace of mind of having a personal alert system with you. MobileHelp, the "on-the-go" help button, is powered by one of the nation's largest cellular networks, so there's virtually no limit to your help button's range.

No landline? No problem! While traditional alert systems require a landline, with the MobileHelp system, a landline is not necessary. Whether you are home or away from home, a simple press of your help button activates your system, providing the central station with your information and location. Our trained emergency operators will know who you are and where you are located. If you're one of the millions of people that have waited for an alert service because it didn't fit your lifestyle, or settled for a traditional system even though it only worked in the home, then we welcome you to try MobileHelp. Experience peace of mind in the home or on the go.

GET OUR SPECIAL OFFER NOW:

Optional Fall Button™
 Best Company BEST OF THE BEST 2023
 The automatic fall detect pendant that works WHERE YOU GO!

*For a limited time - promotions available for select systems and subscription plans, please call for specific details. Offers are valid for new customers and for the first year of service and cannot be combined with any other offers. \$19.95 is the monthly subscription price for a MobileHelp Classic (at home only) system. There is a one-time \$49.95 processing fee to subscribe to this plan. Equipment shown is the MobileHelp DUO (at home and on the go) system available at a higher monthly cost. Most equipment is included at no cost while actively subscribing and must be returned upon cancellation. Free one month of service offer valid with purchase of Annual plan and includes month 13 at no additional charge. Refer to terms and conditions for specific details. Depending on the promotion chosen, you may receive an additional savings of \$5.50 off the \$11 retail price of Fall Detection service. After first year, Fall Detect pricing reverts to discounted price of \$9.25/month when combined with MobileHelp Connect Premium. Fall Detection does not detect 100% of falls. If able, users should push their help button when they need assistance. Fall detection is not intended to replace a caregiver. MobileHelp is a registered trademark, patented technology. Current GPS location may not always be available in every situation on the cellular network at all times. Expedited shipping offer is for Annual plans made prior to 3 PM EST Mon-Fri. Expedited shipping is standard 2-day - no deliveries on Saturdays/Sundays or to Hawaii or Alaska. Shipping delays may occur due to situations beyond our control. PF-SPAD050111658 MHPN-01045 Rev. 1

The Family of Joan Adele Hamre (December 07, 1933 - September 14, 2024) would like to express our heartfelt thanks to our family, friends, and neighbors for your kindness and support during this difficult time. Thank you to all who remembered us in prayer, visited or called, sent cards or flowers, prepared food and made memorial contributions. Special Thanks to Pastor Lori Westfall and our Redeemer Family for the beautiful funeral service, support and comforting words. We are grateful to the staff at the Good Samaritan Home and Henry-Olson Funeral Home for their service, support and compassion. It is comforting to know that Joan touched the lives of so many of you and that you were there for us during this difficult time. Why you need dental insurance in retirement.

Many Americans are fortunate to have dental coverage for their entire working life, through employer-provided benefits. When those benefits end with retirement, paying dental bills out-of-pocket can come as a shock, leading people to put off or even go without care.

Simply put – without dental insurance, there may be an **important gap** in your healthcare coverage.

When you're comparing plans ...

- ▶ Look for coverage that helps pay for major services. Some plans may limit the number of procedures – or pay for preventive care only.
- ▶ Look for coverage with no deductibles. Some plans may require you to pay hundreds out of pocket before benefits are paid.
- ▶ Shop for coverage with no annual maximum on cash benefits. Some plans have annual maximums of \$1,000.

Medicare doesn't pay for dental care.¹
That's right. As good as Medicare is, it was never meant to cover everything. That means if you want protection, you need to purchase individual insurance.

Previous dental work can wear out.
Even if you've had quality dental work in the past, you shouldn't take your dental health for granted. In fact, your odds of having a dental problem only go up as you age.²

Treatment is expensive — especially the services people over 50 often need.
Consider these national average costs of treatment ... \$222 for a checkup ... \$190 for a filling ... \$1,213 for a crown.³ Unexpected bills like this can be a real burden, especially if you're on a fixed income.

Early detection can prevent small problems from becoming expensive ones.
The best way to prevent large dental bills is preventive care. The American Dental Association recommends checkups twice a year.

A New Life for Wind Turbines

Wind projects nearing the end of their lives can be repowered with upgraded technology or on rare occasions, projects may be decommissioned. Ahead of

construction, Invenery creates comprehensive agreements backed by financial assurances to responsibly retire a wind project, which entails removal of project components that are easily recycled and are mostly metal which has high salvage value.

As rapid technological advances are being made in blade recycling, we are committed to following industry best practices at the time of decommissioning. Today, components of a wind blades are commonly turned into cement, industrial plastics, or other manufacturing products by specialized recycling companies. Wind turbine blades have even been used to craft furniture at parks, communities, and schools!

In addition to financial assurances provided by a wind project, Dickinson County's wind ordinance has strict decommissioning requirements and timelines, establishing a responsible, financially backed plan for the life of the project.
