## Chamber planning city clean up this month

Submitted article

FORT MADISON – The Fort Madison Area Chamber of Commerce is coordinating a volunteer community effort designed to remove litter and debris from parks, recreational areas, shorelines and waterways, while inspiring generations of environmental stewards. In past years, Community Clean Up volunteers bagged litter, swept sidewalks, and cleared weeds in an effort to make Fort Madison more presentable to visitors and the general population.

The 2019 clean up date is scheduled for Saturday, April 20, rain or shine, with registration in Central Park

starting at 10:00am. To aid in clean-up efforts, Great River Regional Waste Authority (GRRWA) will be on-site from 9 am to 12 pm for your Hazardous Waste Disposal. Please call 319-372-6140 or 1-800-216-2370 for a complete list of accepted materials.

Gloves, trash bags, and maps highlighted with target-

ed clean up areas will be distributed to participants. Immediately following the morning event, registered participants are encouraged to return to Central Park at noon for lunch. Groups of five or more are encouraged to call the Chamber office, 319-372-5471, to guarantee they can work together. The largest group will have their name engraved on a plaque that is displayed in the Fort Madison Partners office.

Sue Walker and her cancer sniffing rescue dog, Kendall. Kendall was on Sue's lap as usual, after supper, while Sue and her husband, Gary, watched television. The half-beagle-half-pug rescue dog (in more ways than one) from PAW Animal Shelter, kept sniffing and pushing on Sue's right shoulder with her nose. Sue, thinking she had some food on her blouse, looked at her right shoulder and felt around. There was no food stain, but she could feel something puffy on her shoulder and upper arm. Kendall, kept sniffing and pushing, like a drug-sniffing dog for the police.

Very well, Sue decided she would have her shoulder checked out. Sure enough, she had cancer of the lymph nodes and possibly one breast.

There is major history of cancer in Sue's family. Her dad died of colon cancer when she was 14. He wasn't there to walk her down the aisle or see her children.

Her father was the oldest of eight children, and all of them, with the exception of one, died of cancer—brain, lung, bone, prostate, colon—the whole gamut. A lot of them smoked, so there were two lung cancers. Her grandfather died of colon cancer, and her

## BE COLORECTAL CANCER AWARE IT COULD SAVE YOUR LIFE!

Thanks to improvements in prevention, early detection and treatment, more than a million people in the US count themselves as survivors of colorectal cancer.

Colorectal cancer always starts with a small growth polyp, which if found early, can be removed – stopping colorectal cancer before it starts.

A colonoscopy done by FMCH General Surgeon Dr. Riggs Bagan or Dr. Rachel Knudson, is one option to find the polyps and remove them at the same time.

**So if you are a person over the age of 50 talk to your health care provider about getting screened and become Colorectal Cancer Aware.**

# Dog alerts woman to cancerous tumor

**SWARM** - Continued from Page 1

brother of prostate cancer.

Because of the history of cancer in her family, Sue's oncologist recommended that she have her DNA tested. Sure enough again, her DNA tested positive for the BRCA1 gene mutation. BR stands for Breast and CA stands for Cancer. The BRCA gene test is a blood test that uses DNA analysis to identify harmful changes (mutations) in either one of the two breast cancer susceptibility genes—BRCA1 and BRCA2. Women who have inherited mutations in these genes are at an increased risk of developing breast and ovarian cancer.

After discussing it with her doctor, husband and Kendall, Sue decided to have a double mastectomy and complete hysterectomy, followed by chemo therapy and radiation. She's glad she did. (She's the picture of health.) At 69, Sue can't say she's cancer free yet—she's having her blood tested every three months—but she's pretty close. And she has dear Kendall to thank.

Kendall acts as though it's all part of her job. She's just appreciative of the nice home she was given. Sue and Gary Walker got Kendall in 2016 when she was four years old. No, the Walkers do not rent Kendall out for cancer-sniffing. She is Sue's dog, and Sue couldn't get through the day without Kendall.

Sue and Gary, from Denmark, Iowa, want the message to be heard loud and clear. If you have a history of cancer in your family, have your DNA tested, both men and women. Health insurance may or may not cover the cost, depending on circumstances. If it's not

covered it's around \$450—which is worth it. EARLY DETECTION OF CANCER IS THE BEST CURE!

There is even a home saliva test now through a company called 23andMe. This is the first consumer test for three BRCA gene mutations associated with breast, ovarian and prostate cancer that has been approved by the US Food and Drug Administration.

There are no more excuses. Knowledge is power. One out of two men, and one out of three women will develop some form of cancer in their life. You don't have to wait until you're showing symptoms or your pet is sniffing at the disease.

Sue feels lucky to have everything fall in place like it did. From the dog, hospital, doctors, family and friends, she's thankful. Cancer treatment is so much more advanced than what it used to be. In addition to chemo therapy and radiation, there is now stem cell therapy.

Sue says to, "Take charge of your health, before it takes charge of you!"

to help, I encourage you to join in this citywide effort. Come alone or get your friends and family together and meet us in Central Park on April 20th. If you're unable to join us, try and clean up the area around your home or work. Every effort helps," said Savanna Collier, Fort Madison Area Chamber of Commerce coordinator.

This event is made possible with the support of many generous sponsors and participating organizations: Scotts Miracle-Gro, Climax Molybdenum, Iowa Fertilizer Company, Great River Regional Waste Authority, MidAmerican Energy and Hy-Vee.

The Fort Madison Area Chamber of Commerce is an affiliate organization of Fort Madison Partners. Fort Madison Partners is the umbrella organization which oversees the Fort Madison Chamber of Commerce, Fort Madison Economic Development and Fort Madison SIRRC. It serves to facilitate and coordinate efforts, services and resources of each individual organization as well as share strategic goals, working towards the common goal of making Fort Madison a great place to visit, live, and work.

## District talks boosting special ed assoc. pay

C at \$9.10, Class D would be \$9.20 and Class E would start at \$10.10/hour.

All current employees would be boosted by \$1.50 per hour under the proposal.

The district countered in their initial proposal with a five-cent per hour across the board increase. The district also asked to have further discussions about increasing the starting pay for special education associates.

The district also wants to change payroll to the 15th and last day of each month instead of the current alternating Fridays, which would decrease the amount of paychecks from 26 to 24 per year.

After the initial proposals were offered, the negotiations were closed to the public. State code requires initial proposals to be made in open session and then the negotiations can be closed to the public.

# Crabtree blocks seven in HTC win

*Junior keeper leads the SE Iowa Superconference in saves*

PCC STAFF

BURLINGTON – Junior Blake Crabtree racked up seven saves in Holy Trinity Catholic’s 2-1 win over Burlington Saturday in Burlington.

CRABTREE

Head Coach Ryan Culbertson said Crabtree probably had his best game from the keeper position.

Crabtree was tops in the Southeast Iowa Superconference last week with 28 saves and has 35 on the season.

The Crusaders got their goals from Adam Rauenbuehler and Audre Vincent. Rauenbuehler is among the conference best in goals scored with seven in four games. Vincent is right behind with six.

Culbertson said the midfield defense kept the Grayhounds off balance most of the match.

“We were tired and injured late in the game with only one available substitution and the worked their tails off the keep the score at halftime the same,” Culbertson said.

“Our defense was holding Burlington to a limited number of shots and our midfield did a really nice job disrupting the Grayhounds and controlling the ball.”

Holy Trinity stands at 3-2 on the season with their first contest at South Park set for Tuesday against IMS.
