## OFFER: School board instructs consultant to make offer on Superintendent post

BY CHUCK VANDENBERG  
PCC EDITOR

FORT MADISON – The Fort Madison school board has selected a candidate to be its next supervisor, but hasn’t released the name pending background checks and contract negotiations, according to Board President Josh Wykert. The district introduced the two finalists for the position on Wednesday morning at a meet-and-greet at Fort Madisons’ Jr./Sr. High School. Shannon Bisgard, a consultant with Grundmeyer Leader

Services, introduced both David Keane and Mike Wolter to about 50 people in the multi-purpose room. The two had some brief remarks and then mingled for about an hour before heading out to tours of the district facilities and panel interviews. The board of directors then met with each candidate followed by a deliberation session, all of which were held in closed session. The board did come out of closed session Wednesday evening, with a selected finalist.

### Klingner & Associates earn national award for Marina work

WASHINGTON – Klingner & Associates, P.C., of Quincy, Ill., has earned a National Recognition Award for exemplary engineering achievement in the American Council of Engineering Companies’ (ACEC) 58th annual Engineering Excellence Awards (EEA).

The award comes for the Fort Madison Marina Rehabilitation project. To help expand and restore the marina, which had gained significant sedimentation from years of flooding, Klingner’s team utilized advanced modeling to optimize the facility design

without affecting flood profiles. The team implemented a system of rock weirs to dewater dredge materials, allowing for faster drying. That material was then reused to elevate the park,

Deb Scott’s Souls of the Skunk River sculptures take over Fort Madison Art Gallery in May

BY LORI ILLNER GREEN  
Fort Madison Area Arts Association

FORT MADISON - Deb Scott has a passion for the imperfect. Scott’s finely crafted Souls of the Skunk River revel in this idea with engaging busts and high relief sculptures outfitted with ephemera. Each sculpture is enhanced with a story dreamed up to further the viewer’s understanding and context of the caricatures they are encountering. With names like Effie May Cross, Rube Mathis or Purdy the Hornet Reader, any one of these individual characters could have a volume written to tell their tale, or a Disney movie made about them. They are not flawless or beautiful, but that is not the type of art Scott is interested in. Rather, she strives for authentic and engaging. This exhibition features these figurative sculptures along with a collection of watercolors. The Opening Reception for Souls of the Skunk River by Deb Scott is Thursday, May 8, 2025, from 5pm to 7pm. Everyone is welcome to come meet the artist and enjoy complimentary refreshments at the FMAAAA Art Center located at 825 Avenue G in Fort Madison, IA. This exhibition is graciously sponsored by Great River Health. Retirement has afforded Deb Scott the time to indulge in her artistic passion. Scott states that she, “likes challenge and change, going so far as to make my own watercolor brushes from various roadkill,” along with notable sculpting tools that work best for her particular style. Scott further reminisces about her sculptural figures, “I have always had the urge to create. I am self taught. In sculpting I know

Engineering for marina earns local firm national award

AWARD - Continued from Page 1

saving the city more than \$5 million and reducing waste.

The revitalized marina is crucial to the economic development of the Fort Madison area and the quality of life of its 10,000 residents. The project expanded the marina from 5.48 acres to 7.24 acres, nearly doubling the number of boat slips from 100 to more than 170. Klingner also provided architectural and structural design for the new 12,000-square-foot hospitality center, which houses a restaurant, event space, and convenience store.

Klingner & Associates is an engineering, surveying, and architecture firm serving the Midwest.

Judging for the awards program took place in February and was conducted by a national 32-member panel of built environment leaders, along with experts from government, the media, and academia. Award criteria focused on uniqueness, technical innovation, social and economic value, and generating excitement for the engineering profession.

Recognition of all award winners—including 16 Honor Awards, eight Grand Awards, and the prestigious “Grand Conceptor Award” for the year’s most outstanding overall engineering achievement—will take place at the EEA Gala, to be held at the Grand Hyatt in Washington, D.C., on Tuesday, May 20, 2025.

## Local candidates get chance to make case to district

The board voted 7-0 to authorize GLS to make an offer on behalf of the district. Wykert said if all progresses well, the name could be released before the end of the work week.

Wolters is a former teacher at the district and is a secondary principal for the Columbus School District. Keane is the current director of teaching and learning, special education, and human resources for the West Burlington Independent School District. Both currently live in Burlington.

Keane said his experience at different levels of administration makes him a strong candidate for the position.

“Being a 4A principle is much like being the Superintendent. You have assistant principals and we have a sizable budget that you have to manage. So I

"I think I bring some of those things to the table," he said.

"I've also got central office experience and now elementary experience so I think I've got the whole experience from 3 through 12."

He said the Fort Madison position was attractive to him for several reasons, including extended family in the district. But he said the size was attractive because it provides some of both the small district and large district feel.

“The pluses are that you’re large enough that you can offer a broad curriculum. You’ve got a lot of CTE programs that you can offer. You can offer a lot of electives in the core areas. Fort Madison also offers a solid Fine Arts program here. So you know you have a lot of things that you can offer students,” Keane said Wednesday.

“One thing that’s great about it is that

you're also small enough that you can still know who all your students are in just two buildings. You get a little bit bigger than this and pretty soon all of a sudden you have some students start falling through the cracks. Or you get a little bit smaller than this and all of a sudden you're limited in terms of the opportunities you can provide your kids."

Wolter says his familiarity with the district is a plus for his resume, while his experience away from the district has provided the needed administrative exposure to make him a strong candidate for the position.

Wolter said he has always been monitoring what's happening in the district and was waiting for the right time to return. He said this position is the right time.

“I’m still very connected to the

community, so I'm in touch with what's going on here. I still get my haircut here, our insurance is here, so I've kept a watch from afar throughout my career and then this opportunity came up," he said.

“It’s always been in the back of my head that if the right opportunity like this arose, I was gonna jump right in. There’s been other opportunities, but I knew if this position opened up I was going to apply.”

He said the district has a lot of good things going on, including the multi-tiered approach to address the individual needs of students. He said the new facilities are also a draw for him. But it's the staff that has really drawn him back.

"It's just exciting to be a part of that with a lot of good people that I know here already doing a lot of really good things," Wolter said.

Below this, two bullet points are listed: '• 145 YEARS OF COMBINED EXPERIENCE • 7 LICENSED AGENTS' and '• WRITING IN 3 STATES • LOCAL FAMILY-OWNED BUSINESS FOR 61 YEARS'. At the bottom of the banner, several colorful chalk sticks (green, pink, purple, yellow, orange, blue, red) are scattered across the surface. Faint mathematical formulas and diagrams are visible in the background on the chalkboard.

Plein Art paintings in Pop-Up gallery thru May 16

FMAAA- Continued from Page 1

there are rules, for example placement of features, but I never memorized them. If something doesn't look right to me, I simply cut it off and move it." Her process, which includes pottery tools made from deer bones and snapping turtle shells (part of the aforementioned roadkill), produces sculptures that are true to her mind's eye of who and what these characters are meant to reflect to the rest of us. These Souls seemingly ride around with Scott full-time as she acquires the accoutrements to bring them to life and rounds out the stories she has to tell about them.

In addition to being an accomplished sculptor and storyteller, Deb Scott is also an exceptional watercolorist. Her subjects are engaging and free spirited, walking the line of Americana and Scott's own particularly piercing brand of authentic. Once can easily relate to childhood scenes, or the wise faces she renders – equally belly-laugh material and thought provoking. Her landscapes project a different feeling altogether though. There is a beauty that is both haunting and moody reflecting from the woody crags gracefully rooted.

Deb Scott will be on hand for a gallery talk about her work during Lunch ala Art at noon on Friday, May 30th. The cost of the lunch is \$10 and reservations are required. Contact the FMAAA Art Center at 319-372-3996 before Wednesday, May 28 to make your reservation. The gallery talk is free to attend, however, and you are not required to eat lunch. This exhibition will be on display from May 3 through May 31. The FMAAA Art Center is open Tuesday – Saturday: Tuesday and Thursday from 10am to 7pm, and Wed/Fri/Saturday from 10am to 5pm. For more information visit [fortmadisonart.com](http://fortmadisonart.com).

On display in the POP-Up Gallery in May: Plein Air painting on view through May 16  
The FMAAA Art Center hosted its spring open-ended plein air event from March 19 through April 19. Artists converged on the area to paint in situ painting outside in "plein air" capturing imagery from within a 30-mile radius of Fort Madison. From first blossoms to the Depot, farmscapes to streetscapes, plein air artist paint quickly to capture their imagery before the light changes. These works are dynamic and fresh. Stop in to cast your vote for the People's Choice award, or find on Facebook the original post of the entries that came in and cast your vote in the comments on that post. The FMAAA Art Center thanks Clear View Vision Center and MidWestOne Bank for their generous sponsorship of this event.

BACK PAIN?

Do You Have Hip Pain? Are You As Stiff As a Board When You Try to Get Up From a Chair? Have You Run Out of Hope?

How 5 Lies About Low BACK PAIN May Keep You Hurting, Frustrated & Exhausted...Forever!

NEW Scientific Breakthroughs Often Make Short Work of Low Back Pain...Just What Big Medical Centers and High Priced Clinics Are PRAYING You Never Figure Out On Your Own!

Hi, I'm Dr. Jason James, and if you've got any kind of back, hip or leg pain, your worries may be over in just a few minutes. Why? Because I'm the owner of James Healthcare & Assoc. clinic, and I've discovered what may be the best healing secrets for "bad backs" — EVER!

Dr. Jason James, D.C.

I'd be stupid to make such a claim if I couldn't back it up. But I am so confident we can help your back, I insist on giving you a 100% SATISFACTION PLEDGE at James Healthcare. I hate empty promises, and I also hate the lies most folks have been told about their backs. That's why it's important I expose these MYTHS about back pain.

MYTH #1: Sciatica (pain down your leg) is always caused by a herniated disc!

No way...even though most doctors will sell you a \$3,000 MRI at the first sign of leg pain. But they don't tell you about a 5-inch muscle in the hip that can squeeze the sciatic nerve. And it feels EXACTLY like you've got the worst slipped disc on earth. It's a major discovery and...

The good news is that it can be easy and inexpensive to correct! How? Just keep reading! But first, here's a picture to show you where the pain comes from:

MYTH #2: Stiffness from Arthritis means you're getting old...and it must be the reason for all your pain and stiffness!

Not true, because thousands of folks with arthritis in their backs have absolutely NO PAIN! Then why do YOU feel like your back will snap if you bend forward or twist too fast? Because the truth is:

Your stiffness may be caused by a hidden, even more dangerous problem than arthritis, and it can lead to a hip replacement!

You see, most folks believe that something mysterious (like maybe an "arthritis fairy") waved a wand over them, and they're cursed... doomed to suffer forever.

But did you know that many arthritis problems are CAUSED by a combination of unseen imbalances in the spine and surrounding muscles? It's the most common cause of hip replacements but not that hard to correct if we catch it in time. It's like the tires on your car...

If the alignment is off just a teeny-weeny bit, at first you don't notice, but over a few thousand miles you start to see signs of wear...that is, if you're lucky enough to catch it before a flat on the freeway ruins your day. In your spine, you're lucky if you catch untreated imbalances before they ruin your spine! How to fix them? Just look at Myth #3.

MYTH #3: Your Back is "Out"!

Sure, that's exactly how it feels. But guess what, we found that's usually not the case. It sounds good, but we now know better. You see, there are 7 different reasons for that painful, locked-up and stuck feeling that causes so much misery:

- low-grade spasm
- pelvis torque and tension
- imbalance of hips

- fallen or dropped arches
- stiff vertebra joint
- adhesions in leg muscle
- pinched nerve

It's NOT just your spine, and it's NOT just your muscles. As a matter of fact, if one of the major muscles that stabilize the spine is partly spasmed, a "2nd stringer" will have to carry the load. But this is a serious problem...

It's like having your plumber doing all the dangerous electrical work!

Sure, he may get it done, and it may work at first, but how long until there's a fire? Or your back locks up? Which leads me to our next myth:

MYTH #4: "It's Only a Muscle!"

Boy, it's scary how many people think muscle problems are no big deal. Unfortunately, tight, bound-up, and spasmed or tight muscles can wear out joints faster than you can say, "Charley Horse"!

That's why it's important to examine the spine AT THE SAME TIME as the muscles that control it. It's also why we've had such outrageous success with even the worst backs at James Healthcare. Because we deal with BOTH the spine and muscles at the same time. We have spine doctors (chiropractors), pain doctors (nurse practitioners) and muscle professionals (therapists) and together they deliver an outstanding way to help "bad backs". This ties in to Myth #5 and the diagram:

MYTH #5: "Muscle Relaxants" will help your muscles heal! Good grief, NO!

Your muscles tighten up for a reason, and muscle relaxants are like turning back the clock on a time bomb...you know it's still going to blow up! Sure, you may feel better now, but you'll pay later...and pay "in spades"! So don't fall for these lies about your low back. They'll keep you hurting, frustrated and exhausted forever!

WOULDN'T YOU RATHER: Turn over in bed without pain waking you up?

Get up in the morning without being as stiff as a board?

Be able to stand for as long as you want without sitting down for relief?

Lean forward over the sink without that "stabbing" in your back or leg?

SCIENTIFIC BREAKTHROUGH:

A hidden muscle may be causing your SCIATICA! Does Your Back Seem "Too Old" for Your Own Body? Not everyone qualifies for treatment, so help us see if you do. If you check off even one box, drop what you're doing and call James Healthcare NOW. And bring this coupon when you come in for your 39-Point "Back-Pain Track-Down Exam". Now check off what describes you:

- ☐ Tension...always tight across the beltline
- ☐ Bent—crooked off to one side and can't stand up straight if your life depended on it
- ☐ Trigger Point...zinging pain to butt-cheek
- ☐ Stiff as a board...creak and groan when you first get out of bed in the morning
- ☐ Traitor...can't trust your back and what it's going to do—or when!
- ☐ Vice-like...constantly locked down tight!
- ☐ Shooting...vicious but short-lived
- ☐ Lumbago...hard to pin it down—just seems to hurt all the time, but it's hard to say where
- ☐ One-sided...right at that "bone" on one side
- ☐ Jack hammer...pounding off and on like a heartbeat or a toothache in your back
- ☐ Aching from 1-5 years
- ☐ Chronic pain for over 5 years

No one will try to sell you anything, and you make no commitment...you just find out what's wrong!
