Local restaurants concerned with their ability to open and be profitable under proposed Social Distancing rules are considering selling out.

## City council awards contract for water meter replacement

By Bill Forhan

Correct Equipment, Inc of Redmond, Wash. was the winning bidder for installation of the cities new Advanced Metering System. The winning bid was for \$614,698.60. Not including the cost of replacement of any meter well lids. It is unclear from Council meeting minutes if the potential cost of lid replacements was explored. It depends on the number of lids that need to be replaced. The new meters do require that current cast iron and concrete lids be replaced with Polymer lids in order for the radios to be able to remotely read the meters. The original estimates for this project were that it would cost \$900,000 to \$950,000. Six bids were received ranging from Correct Equipment's low bid of \$614,699 to \$907,656. City staff interviewed the top three proposals on May 13. Staff recommended the low bidder Correct Equipment.

customers. She was concerned about loss of water pressure as a result of the new meters, how the new meters would impact customer bills, security of the data being transmitted and the impact of weather on the system.

It was pointed out by the spokesperson for the installation of the meters that the meters do send out an alert if the temperature in the pit drops below 37 degrees. City Public Works Director Herb Amick pointed out that the pits are insulated and he actually thought getting alerts about temperature in the pits would improve the functionality of the system.

Waters was assured that it would not impact water pressure but that the improved accuracy of the meters could well result in increases to the customers' bills. Waters was also assured that the information being transmitted was encrypted and could only be read by the city staff.

The project is funded by two grants. One from a Federal WaterSMART Grant of \$300,000 and an Icicle Work Group Grant award of \$487,000. Depending on the cost of lid replacements the project could be completely unfunded through the two grants.

### Council approves transfer of \$20,000 to Festhalle Fund

As a result of cancellation of events at the Festhalle the fund will become negative by \$2753.75 as of May 26. To prevent that and recognize the ongoing problem of reduced revenues from Festhalle events. Council approved a transfer of funds of \$20,000 from the General Fund.

## School Board Meeting Includes Resolution Declaring State of Financial Emergency

BY MARLENE FARRELL

The Cascade School Board held a regular board meeting on May 26th.

The first notable agenda item was a Budget Presentation by Dwight Remick, CSD Executive Director of Finance and Operations.

Remick explained that the current year budget must be adopted in July. This was an initial presentation about budgeting for the unknown of COVID-19, with an understanding that there would be a deeper dive at the next meeting, followed by work sessions.

One of the presentation slides went over the revenue projections and need to prepare for reductions.

It stated, "Given the impacts of COVID-19 on the total revenues for the State, we are being advised to plan for a 10% reduction in all other funding categories [beyond basic education]..."

The overall possible reductions are projected at

almost \$900,000."

The presentation went on to give many examples of proposed cuts and adjustments to equal that expected shortfall.

Impacts could be felt in staffing, staff training, administration, extracurriculars and materials and supplies.

Some adjustments have already occurred, including a hiring and spending freeze.

Remick concluded by saying, "Our budgeting projections are a crystal ball that is not just foggy but completely shattered."

There was limited discussion afterward, but board members requested a copy of the presentation to study in more detail on their own.

There were several action items related to personnel on the agenda. PD Librarian Helen Hoper's retirement after many years of service was approved. Also, the resignation of Special Ed

Preschool teacher, Alyssa Chamberlain, was approved.

The Dean of Students position was disconnected from the contract with Special Education Director and added to the contract of Dean of Athletics.

The resignation of IRMS CTE/STEM and Hi Cap teacher, Aaron Hansen was approved only after four district parents spoke strongly in favor of Hansen's continuation. These parents, of children who are identified and assessed as highly capable, spoke about how Hansen had given their children depth of learning during his short tenure that hadn't occurred until this year.

Annie Schmidt spoke of how her daughter wrestled with the challenges Hansen gave her and had to do more introspective work, which Schmidt praised.

The board could not legally discuss the resignation, but only approve it.

After that approval, a

couple parents expressed disappointment at the loss of a beloved teacher and worry about the continuation of the Hi Cap program.

Superintendent Tracey Beckendorf-Edou acknowledged the good work of Hansen and the district's continuing commitment to both Hi Cap and STEM.

After policy reviews, the board passed two resolutions. Resolution 19/20-7, Emergency Waiver for Instructional Hours, needed to occur to be submitted with a packet of documentation to the state. Beckendorf-Edou explained that, unlike many other districts, "We do not need the school day waiver, because students were provided continuous learning opportunities right from the first day of school building closures. That is why we are able to end school as scheduled on June 10th rather than needing to extend our school year."

The board congratulated

Beckendorf-Edou on the tremendous effort to document efforts of continuous learning at each grade level.

Resolution 19/20-8 declares a state of "Financial Emergency" for the district. This was a necessary step, given the fund balance is below what is expected. This resolution was approved.

Next the superintendent acknowledged a donation from community member Tom Clayton that went to assist vulnerable families in the district.

Also, The Chelan-Doug-

las School Retirees' Association gave a grant for hotspots for some English Learner families.

The meeting concluded with graduation updates from CHS Principal Elia Ala'ilima-Daley.

Speaking with a strong desire to make graduation as special as possible within the constraints due to COVID-19, Ala'ilima-Daley detailed creative touches staff are planning for seniors.

"We want to give them some normalcy after all that they have lost out on. A final face-to-face celebration."

### Kjell Bakke

Long time resident and community leader, Colonel Kjell Magnus Bakke, passed away on May 29, 2020. Services and obituary are being arranged and will be announced when available.

Obituaries

# Robert Dean "Bob" Pilkinton

June 18, 1928-May 15, 2020

the State of Washington, DOT, plowing snow and maintaining highways in the Tumwater Canyon, Lake Wenatchee and Plain area.

He was a jack of many trades, able to build or fix nearly anything. What he didn't know, he self taught, pouring over books and instruction manuals every time something went kaput. He and his father, and later his son, Tracy, did all the equipment repair for the farm, as well as creating many new "tools" and machines along the way.

Pilkinton Orchards was a member of Blue Bird Warehouse, where he proudly served as a board member for four years in the late 70's. When he won his first term, mom made his favorite cake and frosted "Congratulations to the New B.M.". We couldn't wait for him to walk through the door and see it. He loved it, laughing and howling. He asked her how she knew he would win... she said she just did. He was a farmer through and through, and a man always happy to be using his hands. He was continually working.

As kids it was an adventure to go out at night during spring frost and light smudge pots and sit in the Honey Bee Trailer and drink cocoa. Once he arranged for us to take a ride in the crop duster helicopter, landing and taking off right in the orchard.

He loved fishing when he could get away, and spent many hours enjoying the outdoors with us. Trudging through Icicle Creek hunting under rocks for periwinkles (dad called them penniwinkles) the night before a fishing expedition was as fun as being on the lake.

In his younger days he was an Explorer Scout and led a troop of young Explorers in Leavenworth, teaching bow hunting and other outdoor skills. He taught Firearm Safety for many years at the Leavenworth Fish Hatchery.

He was always ready to help and support his family in every way. He delighted in his role as grandpa (papa) to Kelsey Rose

and Jordan. He loved to laugh, go on picnics, and play cribbage and "Kabowski" with his kids, grandkids, and friends.

Two of his hobbies were leather and metal work. He and his wife attended Dryden Community Church, enjoying their extended family and loving support.

After mom passed, he participated in his first Bible classes, reading the Bible from front to back. And he learned to bake pies, fruit pies, lots of them. He had watched his mother and our mom bake thousands of them. He was a colon cancer survivor.

Dad was kind and sweet and cheerful, and loved to laugh, but he was no pushover. When he dug his heels in, they were set.

He lived life on his terms, sometimes to the exasperation of those around him. He was tough. He taught his children to work, be responsible and trustworthy. He was true and honest and knew exactly who he was. He never wavered from his beliefs and opinions and readily shared them with others. Just this past winter and spring, he wrote his life story with the help and assistance of a hospice volunteer.

Every time I visited him for months he would tell me about the stories and memories he was sharing... ones I had heard a hundred times, but I still loved the excitement in his voice. He titled it "Me and Myself". He said

# Clarence Franklin ("Frank") Ramsey

October 25, 1956 - March 16, 2020

"When I was very young, I was Robert, while in school I was Slim (because I was so skinny) and in the Navy and DOT I was BBB, Big Bad Bob." He said he hoped that he had left some of his life in his children and grandchildren. You did Dad. You did Papa. We will miss you terribly, and see you again one day.

Survivors include son Tracy (Leslie) Pilkinton and grandson Jordan Pilkinton, East Wenatchee; daughter Shannon Duncan, East Wenatchee and granddaughter Dr. Kelsey Rose Duncan, Cleveland, Ohio. He was preceded in death by his parents, wife and favorite son-in-law Bobby Duncan, Jr. Heartfelt thanks go to hospice team caregivers Rhonda, Sarah and Ashley, and special family friends Tony and Connie Burnett.

Private family graveside services will be held at a later date at Mountain View Cemetery, Leavenworth, WA.

Memorials may be made to Dryden Community Church, P.O. Box 369, Dryden, WA. 98821, or American Legion Post 10, P.O. Box 2242, Wenatchee, WA. 98807. Jones and Jones Betts are in charge of arrangements.

Clarence Franklin Ramsey, "Frank" passed away on March 16, 2020 at the age of 63. He was born on October 25, 1956 at Military Region Camp Kure, Kure Japan to John Clarence Ramsey and Toshiko (Jeannie) Ramsey. He had 4 siblings; John, Eddie, Rebecca & Lisa. At the age of 5, the family moved stateside. He graduated in 1974 From Denbigh High VA. He then enlisted in the Army serving as Medical specialist for the 82nd Airborne Division and was honorably discharged in 1977.

Frank relocated to the San Diego area, studied Fire Science at Miriamar College and entered into his career as a firefighter and paramedic.

He met the love of his life Leslye, and married Dec 27, 1980 in Escondido CA. They had 4 children; John, Jessica, Jennifer, and James. In the early 90s the family moved to Grangeville, Idaho.

Franks took a career switch to wildland, working for the Slate Creek Ranger Station. He transferred to the Methow Valley

Ranger District in 2002 and the Leavenworth Ranger District in 2003 where he retired in 2013. Frank had a passion for fire service and a skill set to match.

He spent 33 years on the Fire-line, traveled to 17 states and 3 countries. He worked as a T3 Incident Commander, Division Sup, T1 Complex Burn Boss, Air Attack Group Sup, Initial Attack Crew Superintendent, and achieved many other accomplishments in his professional career. He was well loved by his crews and peers, remembering his confidence and sense of humor.

He was a great father, husband and friend. He explored his love of motorcycles in retirement and spent time with his family and grandkids. In his last years he was cared for by his wife and his health declined.

Frank is survived by his wife, Leslye Ramsey, and children: John Ramsey, Jessica Piestrup, Jennifer Ramsey & James Ramsey; his grandkids: Haylee, Jasmine, Claire, Bobby, Dylan, Vance & Elenore.

Robert Dean Pilkinton, age 91, went home to his Lord on Friday, May 15, 2020. He was born June 18, 1928, in Leavenworth, WA., on the land that he would reside his entire life. His parents were A.J. and Edith (Cade) Pilkinton. He graduated high school in Leavenworth in 1947.

He attended Perry Institute in Yakima, learning auto body repair and restoration. He joined the Navy and served four years (1951-1954).

He was a proud member of the Sea-Bees Construction Battalion, building airstrips and airport fields during the Korean War. He was stationed in Guam, Chichijima, Adak Alaska, and Port Hueneme, CA. As a Driver 1st Class, he was an expert heavy equipment operator.

Meeting on a blind date, he married Julia (he called her Jule) Doris Hlady on November 9, 1956 in Coeur D'Alene, Idaho.

While dating, instead of flowers, he would bring her radishes, her favorite snack. Over the years we reminisced and laughed about that every time radishes were on the table, which was often.

He lived and worked alongside his wife on the family orchard in Leavenworth, growing pears, apples and blueberries. It was rare to see him without his red suspenders and red bandana hanky peeking from his back left pocket. He worked 39 winters, many as night boss, for

Community Foundation of North Central Washington

## Local health providers urge patients to continue seeking care

SUBMITTED BY RACHEL HANSEN  
CASCADE MEDICAL

NORTH CENTRAL WASHINGTON — Local healthcare facilities have teamed up with more than 100 hospitals across the state to urge our communities not to put their health care on pause during the COVID-19 pandemic. Clinics and healthcare centers across the state — including Cascade Medical, Confluence Health and Columbia Valley Community Health — have reported abnormally low volumes of patients seeking routine medical care. At the same time, visitors to the emergency department are arriving with more severe illness, having delayed care. The educational campaign is aimed at addressing the concerns keeping people from seeking appropriate care. “We’ve heard that patients are afraid of contracting COVID from other patients in the hospital or that care teams won’t have time to care for them if it isn’t COVID-related,” Washington State Hospital Association (WSHA) President & CEO Cassie Sauer said. “Health care teams are taking steps to ensure people’s safety when they need to seek care — from screen-

ing to eliminating waiting rooms. Care is safe and available for you and your family. Please, don’t let your health become an emergency.”

Care is available by phone, video call, or in person. In-person care looks a little different now — you might see more people in masks, be asked screening questions, or have your temperature taken. All these precautions are to ensure your health and safety. Make the call to your healthcare team and let them make the call about your medical needs.

**About the Washington State Hospital Association**  
Washington State Hospital Association advocates for and provides value to members in achieving their missions and improving the health of their communities. WSHA represents more than 100 hospitals and health systems in the state, including those that are non-profit, investor-owned, and county, state and military hospitals. The Quadruple Aim guides our members and our work as we strive to reduce the cost of health care and improve the patient experience, the clinician experience and the health of our communities. Visit [www.wsha.org/getcare](http://www.wsha.org/getcare) for more information.

## Man found dead in Wenatchee River

Sheriff Brian Burnett reports on Friday, May 15th, 2020 the body of Jed Thorp was located in the Wenatchee River near milepost 7 on Chiwawa Loop Road. Mr. Thorp was reported

missing to the Chelan County Sheriff’s Office on Monday, May 11th after wandering from his campsite Sunday evening. He had been camping with family over the weekend.

Family members searched for him Monday until approximately 2 p.m. when they called for assistance. A search was initiated by CCSO Deputies as well as Chelan County Volunteer Search and Rescue personnel. The search was suspended at dark. On Tuesday the river was searched by Chelan County Swift Water Rescue personnel. This was followed up on Wednesday by a large search group who searched the area between Chiwawa Loop Road and the Wenatchee River.

On Friday, May 15th, a CCSO helicopter was deployed to search the river due to improved weather conditions. At about 3p.m. approximately 1 mile downstream from the campsite a suspicious object was seen. Swiftwater and Marine patrol members responded and recovered Mr. Thorp’s body. The circumstances surrounding Mr. Thorp’s death are under investigation.

## Lifting Up Your Community through Estate Planning

BY CHRISTINA M. DAVITT,  
OGDEN MURPHY WALLACE PLLC

Many people are asking themselves how they can best support their community right now.

The COVID-19 crisis has brought on intense stress and suffering to so many of our neighbors and friends.

How can we help? While there are a number of immediate opportunities for volunteering your time or making donations, you might also think about how you can make a difference in the long-term.

As an elder law attorney, I often see clients who are struggling to decide whom to give their assets to when they pass away.

Close family members are natural beneficiaries, but some clients have very few or even no family or close relatives that they can name in their Will.

Even for those with family, I often get asked, “Is there anyone or anywhere you would recommend?”

Well, that’s when I sit back and ask them — have you considered a charitable gift? And then I let them think about that possibility for a few minutes.

Usually, their next question is, “What do you mean by a charitable gift?” I tell them I mean that leaving even a small portion of their estate to charity.

I ask them to seriously consider leaving up to 10%, which won’t usually take away much from the gifts they intend for their family members. And that 10%

will mean a lot to charitable organizations and those they serve right here in the Wenatchee Valley.

We all know about the developmental tasks of toddlers and children, learning to tie their shoes, color within the lines and begin to assert their independence from their parents.

But what about the developmental tasks of adulthood and older adulthood?

One of the most important tasks of these ages is to identify ways in which you can leave a legacy.

Perhaps it’s teaching your grandchildren to fish or your family’s favorite apple recipe, but what if part of your legacy was a gift that kept on giving to your entire community for generations to come?

You can leave that sort of powerful legacy when you participate in the Community Foundation of North

Central Washington’s Give 10 program.

Leaving 10% of your estate to CFNCW to steward for you, means that your legacy benefits not only your children and grandchildren, but everyone’s children and grandchildren both now and in the future.

Imagine your gift of \$10,000 going to help establish or support a college scholarship so that our community’s young people can avoid the crushing debt of student loans while they become more educated, so they can succeed and then give back to our community.

Let’s leave them more than money — leave your children and grandchildren a legacy and a fine example of good work by participating in the Give 10 program.

Contact your estate planning attorney or the Community Foundation today to leave your legacy.

## HEALTH PLANS FOR SMALL BUSINESSES

If you’ve got up to 50 employees, let’s get together to see how our local roots and world-class coverage can work for you. You know your business, we know health plans.

**Clare Nelle**

**Kascia Muscutt**

**Josie,**  
Your family is so very proud of you and ALL of your accomplishments! You are such a bright light in this world and your hard work ethic and courageous tenacity will lead you to many more successes. But your thoughtful kindness and deep compassion will create the most impact on those lucky enough to be near you. We love you more than we could ever put into words and that love will always surround you.  
*Mom and Nina*

**Thank you**  
business sponsors  
for your dedicated  
support to our  
schools and students!

“To accomplish great things, we must not only act, but also dream, not only plan, but also believe.”  
- **Anatole France**

# LETTERS TO THE EDITOR

## Regarding 5/27/20 In My Opinion, in your own words Bill, "Politicians who have never run a successful business have proven once again why they are incapable of running a coffee stand."

Lets start there in regard to how all this started and the FACT that the US President ignored ALL Expert Warnings for two months, and even now today.

Not only that, but prior to that he brought back US highly trained individuals in Immunology from Labs in China that specifically track and watch for these type of outbreaks working along with W.H.O. in July of 2019 as his budget cut, shelving an articulated "book" on how to deal with Pandemics, and then transferred the Experts to other jobs.

Had the US Team still been in China, this Worldwide Pandemic possibly could have been stopped or possibly never have happened or spread!

Without them, the Doctors left had no voice in China.

US President, Donald J Trump, who has a record of Business Failures, Bankruptcies, so many along with unpaid Bank Loans so that only Russia or China will back his Loans., Millions of Lawsuits with absolutely no Medical or Military training or service declaring the Pandemic is over, because he won't face how many lives were lost because of his gross negligence of ignoring it for two months and still not supplying the much needed Protection and Supplies.

We are over 100,000 Deaths today in the US and he is congratulating himself on how he handled it and you no doubt, as well.

Encouraging Protests,

threatening Governors, blaming everyone/anyone else and only concerned with his campaign which he started the minute he was sworn in if you will recall.

Eliminating anyone that did not agree and do what he wanted. A Dictator. He won't even build up our failing Infrastructures, only his Wall! And like him and his Tribe, you are blaming others for the US President's complete failure to do his job, using the expertise that surrounded him until he ignored them or fired them, acting like a Dictator, and yourselves, for not preparing.

Washington State alone has been warned regularly, monthly or more, on Local TV news out of Seattle to be prepared for an Emergency, mainly in regard to an Earthquake, making clear that it could be several months they need to be prepared for.

Clearly here we also have another Emergency to be prepared for on a yearly basis, Forest Fires, and now a Pandemic.

The case counts are rising here and the majority are in the two workers age groups per the Health Dept.

They are exposed doing their Essential Jobs, and so, possibly you or anyone else where they work or shop.

Today the Health Dept

says people expose others up to 2 before they show any symptoms. Additionally, they have found people are testing negative when in fact they have it as it is so deep in lungs it goes undetected.

Rather than normal testing, they have to basically insert a "swab" into upper lungs for a sample to confirm the COVID.

Hence, the Death count is no doubt way off and were treated as regular pneumonia. There will be more exposure and case counts.

This is not a Flu and it lasts for weeks to months for many individuals that get it unless caught at onset.

Will you or a loved one be one of the victims or die because you rushed the opening with a lawsuit based solely on current death count by your attorney and not case count that the Governor and Health Experts have designated.

Who is really paying for that Attorney?? We have gotten off easy with our Essential Businesses open, with more allowed safely opening each day. Lives saved should not be Political.

Be patient, Quit Whining because you weren't prepared and Count your Blessings! Take care and Stay Safe!

Shawnee McCartor  
Leavenworth

## How Dare You

Mayor Carl Florea, you owe the Leavenworth community an apology!

I wanted you to know you're not the only one suffering with self-appointed, inept, better-than-thou "Moral Guardian" politicians. I'm forwarding today's "letter" from the Mayor of Leavenworth. His "letter" is a microcosm example of the thoughts by the self righteous, which [he] somehow believes and wants to forward the idea, racism only exists because of, and through the fault of, "White America". All of us across socio-economic, religious, political beliefs should be offended and angered by this man's vile, bigoted and, yes, racist statements. Who does he think he is to assign blame to a singular group of people?! Racism is a systemic problem for all Americans, whether Black, Brown, Red, Yellow or White.

Scroll down to take a look at his staggering statements.

This Mayor's obvious inability to focus on his job responsibilities and obligations (as a mayor) and his belief that he has the "right" to use his public elected office to promote his personal opinions is worthy of consideration to petition

for his recall; he is using public funds (his salary) for personal reasons. I am angry and I am tired of insipid, egotistical, radical politicians, like this man, telling anyone who and what we are as Americans. His arrogance and conceit to lecture anyone is staggering and blindingly ignorant.

Carl Florea you are shamed and should be ashamed of the divisive, malicious, malignant rhetoric you have written with willful insults you hurled at all of us who have many friends of color. That you have now sent out another outrageous, completely inappropriate, ill-intentioned letter purposely to satisfy your ego, you need to seriously and genuinely re-evaluate what your role of mayor is and shut-up.

Although I would love to have the courage to ignore you and "cancel my subscription", I will hold onto a prayer you will learn you are not the "end all and be all" to the "wee pebbles" of Leavenworth so, I will continue to read the "Florea Follies".

Cathy Schwartz  
Leavenworth

## Dear Community Members,

As is my practice, I am going to share my thoughts with you on our current pandemic. But the pandemic I am going to address is not COVID-19. You are going to get a bit of a respite on that one.

I am talking about a pandemic that has been with us a lot longer, inflicting untold damage on individuals and entire communities. It brings death and destruction in its path. And there is not now, nor will there ever be, a vaccine. I am talking about the ingrained and institutionalized racism that continues to plague our great nation.

The latest casualties are George Floyd and Ahmaud Arbery, their families, and their communities. It is a rampant disease, often exist-

ing silently just beneath the surface.

It is far more widespread than any of us want to believe. We want to believe that it is isolated. We want to believe that it is restricted to the south. We want to believe it is restricted to large cities. Certainly, it is not a problem for us, is it?

In truth, this is a disease in which all of us who are white are carriers. We all spread it, most often unwittingly, (I would hope), but at times very blatantly. I can't imagine what it would be like every time you walk or jog in public to be accompanied by fear.

Every time you are pulled over by a policeman to wonder if this might be the end. Every time you are in a store to have extra eyes following your every move.

It is so far from my experience, that I have a hard time comprehending that anyone would have to live this way. But those who are people of color, do. What makes this pandemic so horrible, is the fact that those who have it, those who carry it, those who spread it, are not its victims. But over and over and over again, we see individuals and communities of color paying the price, while we pretend it isn't really our problem.

It is our problem, and it will be with us a lot longer than COVID-19. Long after we get a vaccine for that virus we will be dealing with the insidious and pervasive effects of our racism. Unlike the COVID-19 battle, where we have been drilled into social distancing and separation, this pandemic will require social connection.

We need to own the racism that exists in our own lives as well as our institutions and societal norms. We need to be willing to be uncomfortable when confronted with the extent that we have been carriers of this disease.

We need to learn from those who are its victims. We need to do what we can, to cleanse our nation. It has not been easy. It will not be easy. It will take a lot of time and effort. But we cannot afford to just continue on the path we have been on. We cannot accept a society where the color of your skin alone means you must do everything with a nagging fear that you or someone you know and love may be its latest victim. We can and must do better.

This is not a conservative or liberal issue, it is a human issue. Until it is addressed, we are all a little less human.

Carl J. Florea  
Mayor,  
City of Leavenworth

# "I can't delay my care."

There are misconceptions around the safety of visiting a clinic, hospital or health center right now - but medical providers want you to know accessing health care is safe. Care is available by phone, video call or in person. In-person care looks a little different right now: There aren't any more crowded waiting rooms, and you'll likely see a lot of people in masks, being asked screening questions, or have your temperature taken. All of these precautions are to keep you safe.

Hoping a medical issue will just get better? Not getting help could mean it will get worse. If you have a physical or emotional health concern, make the call to your care team and let them make the call about your medical needs. Don't put your health care on pause.

Don't delay. Get care. We're here.

## FURNITURE

**NCW MEDIA**  
Bringing the community to your door

We have excess office furniture available. Most of this is in good condition. Some may require minor repairs. There are 2 large wood desks., and one metal desk, a conference table, a large counter approx. 7' x 3 1/2' tall with removable shelves, wood credenza and 4' x 4' white board (free) All other items are \$25.00 per item. Call to arrange a time to examine or pick up. All items located in Cashmere. We also have a small safe that is free to a good home. It has not been opened for many years because we do not know the combination. It could include valuable material we don't know. If interested, call: 509-548-5286 or 509-670-1837. See photos of these at [NCWMarket.com](http://NCWMarket.com)

# How to relieve itchy eyes

**Q: When my allergies kick up, a nasal spray helps my sneezing and runny nose, but my eyes are still red and itchy. Can an eye drop help me?**

Years ago, I bought my dream car, a classic jet-black 1985 Jeep CJ7 hard-top. I can still remember a mid-August Saturday afternoon when my husband Charlie and I took the top off the Jeep and drove through the backroads of central Ohio. Moist earth greeted us as we cruised by rows of tall stalks of corn alternating with lush fields of bushy soybeans.

Saturday afternoon was magic, but Sunday morning was a nightmare. When I woke up, my nose was stuffed up nose, and my eyes itched like fire.

What could have set off my allergies? The only thing I'm allergic to is ragweed, and we drove past corn and soybeans.

I hate to tell you, honey, but we definitely drove past ragweed yesterday. I saw TONS of it growing thick in the ditches by the sides of the road.

Aaargh!

If you need to soothe the discomfort of itchy eyes from allergies gone wild, you'll find several eye drops available without a prescription. How do you choose the best one?

Lubricating eye drops can ease the burning and help relieve dryness. Systane®, GenTeal®, or Refresh® help reduce the isand in your eyes feeling

by flushing pesky pollens away, but can't shut down your allergic reaction once it starts.

Decongestant eye drops help your eyes look less red or bloodshot by shrinking the blood vessels in the whites of your eyes. They can help reduce puffiness around your eyelids but don't help reduce allergic reactions.

Naphazoline is the only decongestant eye drop available without a prescription. Sold as Naphcon, it's also available combined with an antihistamine, such as Visine-A® and Naphcon-A® ("A" means antihistamine). Eye drops containing naphazoline can cause trigger dry eyes and aggravate certain types of glaucoma, threatening your vision. Because of this risk, avoid using naphazoline eye drops for more than 3 days at a time. If you have glaucoma, you should avoid using naphazoline eye drops completely.

Antihistamine eye drops help reverse eye itching and swelling from allergies. Pheniramine maleate is an antihistamine available in both Visine-A® and Naphcon-A® eye drops. Because these eye drops also contain the decongestant naphazoline, they should only be used for 3-5 days at a time.

The most effective eye

drops to use when allergies strike is ketotifen. Ketotifen works both by helping prevent an allergic reaction and by calming it down once it starts.

When you encounter something you are allergic to, it triggers a chain reaction leading to redness, swelling, and itching. This reaction is triggered by a chemical called histamine. Your body stores histamine in specialized cells called mast cells. When it recognizes pollen or cat dander as something you are allergic to, these mast cells open up and release histamine into your bloodstream, creating the misery of an allergic reaction.

Medicines called mast cell stabilizers BLOCK this chain reaction from getting started because they keep histamine locked up inside your mast cells. Ketotifen and olopatadine are mast cell stabilizers used in eye drops. Thanks to them, I can drive past ditches full of blooming ragweed without suffering the next day, because they can keep histamine safely inside my mast cells.

Ketotifen and olopatadine have other effects than keeping histamine safe inside your mast cells. They also work as antihistamines to prevent and relieve allergic reactions. Once sold as the prescription drug Zatidor®, ketotifen is also available as Alaway® brand eye drops. Prescription-strength olopatadine (Pataday®) is

now available without a prescription.

Here are 4 Tips on Using Eye Drops for Allergies:

1. Avoid naphazoline eye drops.

Decongestant eye drops don't address the allergic reaction and only reduce redness. Limit your use of naphazoline eye drops to three days at a time, and avoid it entirely if you have glaucoma.

2. Choose ketotifen (Zatidor®) or olopatadine (Pataday®) eye drops for best results.

Ketotifen and olopatadine work both as antihistamines and mast cell stabilizers to relieve itchy eyes. They are also safe to use in children as young as 2 or 3 years old.

3. Use only one drop in each eye.

Any more than one drop at a time will just run out and be wasted. Wait a bit before giving yourself another dose.

4. Keep it clean.

Always wash your hands first and avoid touching the tip of the dropper directly to your eye or to any other surface.

## THE WASHINGTON OUTDOORS REPORT

### Tournament fishing and humble pie

By JOHN KRUSE,  
THE WASHINGTON  
OUTDOORS REPORT

My fishing partner, Rusty Johnston, and I always considered ourselves to be very good bass anglers. At least, we did until we decided to dip our toes into the world of tournament fishing.

Every September there is an event at Potholes Reservoir called the "Old Fart's Bass Tournament" where at least one of the two anglers in the boat has to be over 40 years old. The rules are simple. Fish for eight hours and weigh in the five heaviest bass from each boat by 3 p.m. All the bass are released after the weigh-in.

Our first foray into tournament fishing didn't go well. We weighed in a five-fish limit but altogether they only weighed three pounds. Yikes! We've fished this annual tournament five times. Our heaviest bag was a five-fish limit weighing 14 ½ pounds. Not bad but not anywhere near a paycheck when the winners routinely weigh in 20 to 25-pound limits.

We've learned a few things along the way. First off, your boat and motor matters. Rusty owns a 1994 16-foot aluminum boat with a 40 HP outboard motor. Top speed? About 29 MPH. The competition? They primarily fish out of 17 to 20-foot bass boats with outboards ranging from 90 HP all the way to 200 HP and they can top out at nearly 60 MPH. When it comes to getting to the hot spot at first light, we don't stand a chance.

Then there's the issue of staying on the hot spot.

Courtesy MarDon Resort

**Rusty Johnston shows off two nice bass caught at the Old Fart's Bass Tournament.**

Many new bass boats have power poles mounted on the stern that can anchor a boat in shallow waters of less than 10-feet. Other's have trolling motors with a feature called Spot Lock that keeps the boat in place. If you are fishing a piece of structure like an underwater hump you can lock yourself in at the top and fish the slopes where the fish often hang out. As for us? We have an old anchor and a rope. It works but we tend to float away several yards from where the anchor drops, meaning our positioning (and ability to target the fish) is not as exact.

Something else we've found is the need for a modern fishfinder with a GPS plotter and map. We have a basic fishfinder that shows us the bottom and fish but it doesn't have a GPS plotter. During one tournament, we drifted over a habitat box at the

bottom of the lake. These boxes provide cover for bait fish and bass are attracted to these boxes too. We picked up a decent bass as we drifted over the box but with no GPS, we couldn't find that box again despite trying to do so for ½ an hour. At about that time a modern bass boat roared in. Using a way point the anglers had previously marked with their GPS, they went right to that habitat box. In 15 minutes, the anglers on board reeled in five good bass and sped off to the weigh-in site.

That was the moment we realized it was time to upgrade! We can't afford to buy a new boat or motor but we are upgrading to a modern fishfinder. We've ordered a new Lowrance Hook Reveal 7 that has incredible sonar with the ability to see not only what's below with incredible clarity but also a side sonar feature to see

what's on either side of the boat. This Lowrance unit also has a GPS plotter and a Navionics map with topographic information for 11,000 lakes to include Potholes Reservoir. Better still, it's all displayed on a 7-inch color screen and is very easy to use.

We'll spend the summer using this to mark the humps and habitat boxes around the lake that hold fish in the fall. We are also fishing a new event; the Berkley Big Bass Tournament taking place October 3rd at Potholes Reservoir. With our new Lowrance and a little luck, we might finally take home a paycheck. Then, we can go back to believing we are as good of anglers as we once thought we were! I'll let you know how it goes.
