Major changes coming to Leavenworth Community Farmers Market Get the Food to the People, Safely!

SUBMITTED BY LORRIE TATUM

In late March, the Leavenworth Community Farmers Market (LCFM) Board of Directors faced a difficult decision: re-organize a beloved farmers market to implement extreme limitations and community health precautions, or find a new way to deliver an essential service to the more than 2,000 residents of a small tourist town while supporting more than fifteen local farms. For guidance, they turned to the people they function to serve: residents and farmers.

Via online surveys, the Board gathered hundreds of perspectives on how comfortable the public would be with attending the Market, how many people would still require no-contact shopping due to increased vulnerability, and how critical the weekly market is to local farmers.

The results were varied, as you would expect in a diverse, small town, but they showed a clear sense

of direction.

When combined with evidence that outdoor spaces provide a significantly reduced risk of transmission for coronavirus than indoors, they had their answer: the community needs the option to shop for healthy, nutritious food outdoors and it is more important now than ever for us to support local farms.

It was decided that the Market will open as scheduled starting Thursday, June 4, with one simple mission: get the food to the people, safely.

This goal has guided every decision the organization has made, and has led to several major changes, most notably that the Market will be relocated to the Alpine Lakes Elementary School parking lot, thanks to the Cascade School District's ample generosity.

Moving the Market away from the highway and into a parking lot in the neighborhoods will allow for increased social distancing measures and lend priority to local customers and their needs

Another major change

is that both customers and vendors will be required to wear masks within the market.

LCFM currently has a limited supply of disposable masks to hand out if shoppers do not have one. But hopes to recruit a vendor that makes and sells masks. For now they are asking those who can to please bring their own.

The Market will also protend with respect for your

options by establishing a
Vendor Directory on their
website where customers
can find details of how to

pickup at the Market. Finally, in their COVID19 Statement on their website, LCFM asks customers to "Please be prepared to at-

purchase directly from

farmers outside of Market

day or through curbside

vide alternative shopping community's health needs."

You can find details about the many other precautions the Market is taking, their full statement, the new Vendor Directory, and information on how to volunteer or donate at leavenworthfarmersmarket.org.

Markets are Thursdays from 4 p.m. – 8 p.m. at the Alpine Lakes Elementary School parking lot, starting June 4.

Cascade Medical reopens services New safety measures in place Submitted Photos

Miranda Raiche, MD, awaits patients at the Family Practice Clinic.

SUBMITTED BY RACHEL HANSEN CM MEDIA SPOKESPERSON

LEAVENWORTH – Cascade Medical announced today it will reopen most outpatient services, including physical therapy and diagnostic imaging, with extra precautions in place so patients can feel supported and safe.

"This is great news for patients who have delayed everyday healthcare due to COVID-19," CEO Diane Blake. "Safety is our top priority. Our team has gone above and beyond to ensure that we are following best practices from the Centers for Disease Control and the attack Parastropate (New York).

trol and the state Department of Health."

The decision follows Governor Jay
Inslee's proclamation May 18 that allows
non-urgent medical and dental procedures.

In early March, those services were postponed while hospitals focused their efforts on preparing for the pandemic.

This week, healthcare facilities statewide are welcoming back patients with better stores of supplies and equipment, widespread testing capability, and better

capacity to provide a safe environment for everyone.

At Cascade Medical, newly opened services include:

- All Family Practice Clinic appointments, including behavioral health, chronic condition management
 - Physical Therapy
- Speech TherapyOccupational Therapy
- Occupational Thera3D Mammography
- 3D Mammography DEXA Bone Scan
- Post-surgical or inpatient rehabilitation Most appointments are available inperson or over telehealth, which allows patients to visit with their care team over a device with an internet connection, such as a smartphone or computer. Cascade Medical also offers financial assistance and help with insurance enrollment.

"We want patients to feel empowered knowing that they can choose how they interact with their care team, whether it's with telehealth or in person," Blake said. "If you're unsure whether you need an ap-

pointment, your care team would be happy to talk to you about it."

For in-person visits, the check-in process looks different, but it was designed with safety and efficiency in mind. A staff member will greet all patients at the main entrance for a quick screening.

The staff member will:

- Ask about concerning symptoms
- Check temperature with a no-touch scanner
- grade procedure mask for people to wear while they're in the building The Washington State Hospital Asso-

· Provide hand sanitizer and a medical-

The Washington State Hospital Association recommends that all patients and visitors don masks to contain any germs expelled as people cough, sneeze or talk.

Most healthcare facilities are complying with this best-practice recommendation, including Cascade Medical.

Cascade Medical is also implementing other safety measures:

• Providing separate treatment areas for people with COVID-like symptoms to

ensure that everyone has a safe environment to receive care.

- Encouraging social distancing with reminders of safe distances and protective barriers
 - arriers

 Limiting visitors and guests
- Frequent disinfection of common and high-touch items, like door handles, elevator buttons and counters.

"It's important to us that our patients have all the tools they need to live a healthy life," Blake said. "We are confident that everything is in place to ensure we can provide that care safely."

Cascade Medical is a nonprofit, community-owned, critical access hospital that delivers extraordinary healthcare by taking more time with each patient and their families. Centered around primary care, the medical center also provides lab and screening services; physical, occupational and speech therapy; ambulance service; emergency and acute care, and inpatient rehabilitation.

HopeSource boosts aid to veterans

struggling with housing during the COVID-19 crisis, there's extra help available from HopeSource.

Increased funding from Veterans Affairs will give HopeSource the ability to serve veterans who are homeless or in danger of becoming homeless.

Help with finding temporary or permanent housing and eviction prevention will be available to U.S. military veterans in Kittitas, Grant, Adams, Okanogan, Chelan and Douglas counties.

HopeSource already operates the Supportive Services for Veterans Families (SSVF) program, which helps secure housing and benefits for veterans.

These extra funds, totaling \$880,000, are to be spent in the next several months to help veterans suffering from the consequences of the pandemic.

A key difference with this new funding is that it allows HopeSource case managers to better assist those who are in danger

For veterans who are of becoming homeless, not just the literally homeless.

> "For the first time many veterans who are struggling but not quite homeless will be able to ensure a stable life for their families, decreasing the stress on themselves and their family members," said Susan Grindle, HopeSource CEO.

"This will allow them to focus on education and employment that will lead to permanent stability."

Claudia Betancourt is an SSVF case manager for Chelan and Douglas counties and a veteran herself. She says these funds are critical for the health and well-being of veterans.

"With everything going on in our country right now with COVID-19, it is especially hitting hard in the veteran community because we do tend to isolate ourselves and have trouble leaning on our community supports more than the average person," Betancourt

Her mission is to make sure these funds go to help those veterans in need.

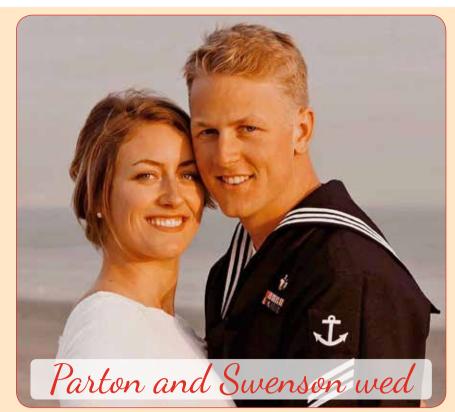

HopeSource has been assisting veterans in six Central Washington counties for more than six years through the SSVF program. It's a vital service, Grindle said, because of the focus on veterans.

"We are able to demonstrate to those who chose to serve and protect this country that the country honors them and has their back, supporting them in their role as civilians and contributing members of their community," Grindle

Veterans with honorable or other than honorable discharge status are eligible. To apply, call Hope-Source at (509) 925-1448 or go to www.ssvf.us.

HopeSource is Community Action Agency providing a wide range of human services in Central Washington.

Contact: Samantha Puntenney spuntenney@hopesource.us (509) 925-1448

Village Art in the Park Scholarship Winners

SUBMITTED BY CLAIRE BURLINGAME

Village Art in the Park is pleased to announce two \$8,000.00 (\$2,000.00 per year) scholarship winners for 2020.

The first is Cascade High School senior *Kendra Emry* who will be entering a four year program at DigiPen Institute of Technology, Redmond, WA. to obtain a Bachelor of Digital Arts and Animation program in the fall of 2020.

The second is Cascade High School senior Natalie Craig who will be entering a four year program at Oregon State University, Corvallis, OR. in the College of Business Innovation Nation for their interior design program in the fall of 2020.

We congratulate both young women and wish them success in their future endeavors.

Art in the Park Thrived Under Mary Warden's Directorship Callie Baker is the New Director

BY MARLENE FARRELL

Since the dawn of Leavenworth's Bavarian village, artists have added to the pedestrian delights of downtown.

Canvases in bright hues, photographs of wildlife and peaks, pottery both functional and elegant and metal works shimmering in the sun all draw tourists and residents alike.

Back in the 60's visitors would stroll through a garden of wooden easels. These days, each artist has their own booth, where the artist might be working, giving visitors a glimpse of the creative process.

Village Art in the Park (VAIP), always evolving, now runs three or four days a week for six months, making it the longest continually running outdoor juried art show in the state.

The success of VAIP is due, in large part, to Mary Warden's tenure as its di-

"For twenty years my life has been synonymous with VAIP. In season and off," said Warden.

Warden, a painter herself, brought a wealth of local knowledge and a unique skillset to the job. "I was born and raised in Leavenworth. I also worked most of my life here, everything from cocktail waitress, to front desk at a hotel and a hardware store manager. My most important job was being a single mom of two beautiful daughters."

Warden accepted the director position with eyes wide open. "It had the reputation for being a difficult job. There had not been a director that lasted longer than one or two years."

As Director of VAIP, a nonprofit, Warden worked closely with the board, made up of local business owners and retirees. Warden helped bring their vision to fruition.

Day to day, it was Warden's relationship with the artists that helped VAIP thrive.

Thirty some artists take turns using about eighteen booths each long weekend, and Warden was there right along with them.

McKenna Ihde and Pete Kornowski are an artist couple from Wisconsin who come each summer to be a part of VAIP.

"Mary was very much respected across the gang of artists and did an amazing job balancing the needs and opinions of us creative types," said Kornowski, whose paintings tell stories and spur the

imagination."When it came effective advocate for our to issues with the city, the board or some other lo-

interests."

RECPOUR VALLEY & STAY OPEN - SAFELY!

We all want to get back to a more normal routine, here's how you can help our Valley get there.

For more information about fighting the spread of the COVID-19 virus, visit www.cdhd.wa.gov/covid-19.

MASKUP STOPTHESPREAD

"I cant delay my care.

There are misconceptions around the safety of visiting a clinic, hospital or health center right now - but medical providers want you to know accessing health care is safe. Care is available by phone, video call or in person. In-person care looks a little different right now: There aren't any more crowded waiting rooms, and you'll likely see a lot of people in masks, being asked screening questions, or have your temperature taken. All of these precautions are to keep you safe.

Hoping a medical issue will just get better? Not getting help could mean it will get worse. If you have a physical or emotional health concern, make the call to your care team and let them make the call about your medical needs. Don't put your health care on pause.

Don't delay. Get care. We're here.

112 hospitals. One voice.

THANK YOU TO ALL THE CASCADE SPORTS TEAMS!

Opinions

Just how serious is this Pandemic?

I was moved by a ruling from a judge in Illinois this last week. It raises serious questions about who we should trust regarding the dangers we face from this disease.

Here is what Judge Michael McHaney of Clay County Illinois had to say in a ruling about a Corona virus case before him.

"Since the inception of this insanity, the following regulations, rules or consequences have occurred: I won't get COVID if I get an abortion, but I will get CO-VID if I get a colonoscopy.

Selling pot is essential, but selling goods and services at a family owned business is not.

Pot wasn't even legal and pot dispensaries didn't even exist in this state until five months ago and, in that five months, they have become essential, but a family-owned business in existence for five generations is not.

In My **O**PINION Bill Forhan Publisher

A family of six can pile in their car and drive to Carlyle Lake without contracting COVID but, if they all get in the same boat, they will. We are told that kids rarely contract the virus and sunlight kills it, but summer youth programs, sports programs are cancelled.

Four people can drive to the golf course and not get COVID but, if they play in a foursome, they will. If I go to Walmart, I won't get COVID but, if I go to church, I will.

Murderers are released from custody while small business owners are threatened with arrest if they have the audacity to at-

tempt to feed their families. surfaces. These are just a few of examples of rules, regulations and consequences that are arbitrary, capricious, and completely devoid of anything even remotely ap-

proaching common sense.

State's attorneys in this state, county sheriffs, mayors, city councils and county boards have openly and publicly defied these orders followed by threats to withhold funding and revocation of necessary licenses and certifications unless you obey.

Our economy is shut down because of a flu virus with a 98 percent plus survival rate. Doctors and experts say different things weekly. The defendant cites models in his opposition. The only thing experts will agree on is that all models are wrong and some are

The Centers for Disease Control now says the virus is not easily spread on Americans don't get ruled.

The defendant in this case orders you to stay home and pronounces that, if you leave the state, you are putting people in danger, but his family members traveled to Florida and Wisconsin because he deems such travel essential.

One initial rationale why the rules don't apply to him is that his family farm had animals that needed fed. *Try selling that argument* to farmers who have had to slaughter their herds because of disruption in the supply chain.

When laws do not apply to those who make them, people are not being governed, they are being ruled. Make no mistake, these executive orders are not laws. They are royal decrees.

Illinois citizens are not being governed, they are being ruled. The last time I checked, Illinois citizens are also Americans and

The last time a monarch tried to rule Americans, a shot was fired that was heard around the world.

That day led to the birth of a nation consensually governed based upon a document which ensures that on this day in this, any American courtroom tyrannical despotism will always lose and liberty, freedom and the constitution will always win."

The problem is we are being challenged daily to wallow in fear by our elected leaders and most of our media.

Facts on the real impact are hard to find. Projections of the carnage that will result if we don't comply change based on who is doing the reporting.

A recent letter to the editor in the New York Times said, New York is dying. Its streets are empty. Its leaders have no solutions.

The same can be said right here at home.

The small businesses that built this community are in danger of closing

permanently.

A local restaurant in Leavenworth has posted a for sale sign on his business. He says if he can only have half of his tables open, he can't make enough to pay his rent.

The Payroll Protection Program is an incomplete solution. If the restaurant cannot make enough money to pay their rent when they reopen at half capacity, there will be no jobs for the employees.

No one wants to see anyone die from this disease but the reasons for the initial closures no longer exist.

The truth is the best doctors cannot save everyone who seeks their help. It is time to end this insanity.

Politicians who have never run a successful business have proven once again why they are incapable of running a coffee stand.

It's time to remind them that without a vibrant economy the government offices they hold will also end up on the trash pile of failed political organizations.

LETTERS

Stay the course!

I am responding to the whiners in articles and opinions 5/13/20 and others in town, regarding Governor Jay Inslee and his, in conjunction with the Washington State Health Dept, plan for safely reopening the State of Washington and it'scounties. There is some very false or twisted fact information being made not only in print, but in the stay safe protest marches and by a candidate running for governor, which I would like to enlighten the Echo readers on.

When an emergency declaration is made in been a jump last week in Washington State by the Governor, he decides what, when, where is safe per laws in Washington including shutting down Hwy 2 if he deemed it unsafe! Those

this is not in the Governor's power, please educate yourself to - RCW 43.06.220State of emergency - Powers of governor pursuant to proclamation.

Additionally, to move to Phase 2 of opening Washington State there are to be no deaths or new cases for 3 Weeks. Per the Chelan County/Douglas Health Department charts on their site, we have had a steady incline of positive cases since April 20.

The numbers are posted late and not always in a timely manner so, they could be higher.

But the fact is, there has Leavenworth along with another death alone, between the last two charts which could be higher due to late or delayed reporting. Not all that tested individuals stating that have results. This number

is noted there as well. This starting up again after the increase of traffic from western Washington starting three weeks ago and increasing each weekend. If you go to Chelan/Douglas Health at https://cdhd. wa.gov/covid-19/#casecount weekly you would see we, in Leavenworth, went up to 1 case from 6 to 7 and our deaths unfortunately went up from 5 to 6. So even Leavenworth is increasing! This increase, as small as it may be, is happening as more people come to visit. It could very well be spiking here. Thank God we are not up in the 100s as Wenatchee and East Wenatchee are in cases and higher deaths. But the Fact is Chelan and Douglas Counties have not met the requirements to

move to Phase 2. I understand where the

Whining is coming from; loss of revenue, money, or boredom, which is big and never before in our Lifetime ever happened before. But why is it worth peoples lives and possibly future health and lives of their families and friends. Many that are at tremendous risk, built Leavenworth up into the great little town it is today. Or many other lives sick, that may never recover from the ravages to their bodies of this Pandemic disease ending up disabled or nursing homes because they can't take care of themselves due to destruction to their organs from this Pandemic? People that had it and got return to them. So much is unknown that they have to learn as well as get a good safe vaccine before this might go away eventually,

part and pay attention to the safe plan.

Wake up people! Just stop and think beyond yourselves; think of all the frontline people helping us through this Pandemic at risk out there and think of all the others in your community or state. Drop the "me" from that equation. It is not going to go magically away despite what you hear. What has happened to your humanity or has this community or state turned into a third world thinking? Survival for only the fitest and richest, you only die if you are unhealthy. Stop demonstrating without feet apart, teaching your children to disobey the others. Don't put people in danger because of your selfishness, which when you get down to it is childish. The state, counties

but we all have to do our and cities are under the direction and power of our elected governor, commissioners, mayors by all to govern and rule within the laws granted them, until all the states are declared little kingdoms by our selfappointed king...

Stay healthy and safe. Be thankful we have each day in this beautiful town to walk and exercise. We will get through this safely if we all do our part as the plan is laid out by our governor and state health department. They along with all the great first responders, frontline healthcare workers, frontline grocery workers, and frontline shops worker masks and not keeping 6 are all doing their best to help us all through this. A big shoutout thank you all over it are now having it rules to safeguard you and frontliners for being there

> God Bless All! Shawnee McCartor Leavenworth

Petition R90

You've been hearing but what is it? Recently passed in Olympia was SB 5395. This Bill has made mandatory, a 'Comprehensive Sexual Education K-12 Curriculum' in all Washington public schools.

Sex Ed curriculums have been recommended and included in the past, and have had much more local input and control.

This Bill forces a much more intensive/extensive curriculum. In their framework for CSE, Interna $tional \, Planned \, Parenthood$ Federation states, "Our approach includes an emphasis on sexual expression, sexual fulfillment, and sexual pleasure.

This represents a shift

away from methodologies that focus exclusively on the reproductive aspects of adolescent sexuality".

Why is this a problem? Once again the state and ultimately the federal government is taking the education of our children out of local control.

Out of the influence of parents and teachers who know our kids best, and would like to give input into what is taught, especially with this sensitive subject.

Referendum 90 is a petition drive to gather 130,000 *signatures by June 1st – so* we can repeal this recently passed SB 5395 in Novem-

Then parents and schools could come together and look at curriculums they think would best suit their children.

Please join us in this and let your voice in the matter

We are doing parking lot drive thru petition signings - bring your own pen.

Polly McIntyre Leavenworth

I'm protecting you

Bryan Anderson in his letter to the not protect me, it protects you. Editor on May 13 posed the question, "If you want to wear a mask, why does it matter if I choose not to wear a mask. Doesn't your mask protect you?"

In answer to that, no, my mask does

If you wear a mask it protects me. I'm willing to protect you. Are you willing to protect me?

Adele L. Juvet-Fuhrer Leavenworth

Open Letter to Representative Newhouse

We are heartened by your commitresume businesses and services!

Unfortunately, in Leavenworth, our new mayor Carl Florea is completely against reopening our downtown, where the majority of business are located and where tourists head for.

He mumbles about following "proper protocols" but provides no concrete reasons or dates.

Meanwhile our local business ownment to open WA communities and ers are heartbroken and helpless as they see their lifetime investments $drain \ away...$

> Would you consider speaking with him and perhaps reminding him that he must use his office to serve our community, especially its economic health?

Ann Crosby Leavenworth

Osborn should be retained as a community center

SUBMITTED BY KENNETH KOHNHORST

Several months ago, I attended a meeting at MEND office regarding the possible use of Osborn Elementary once the new school was built. Since that meeting I have heard little from anyone in the community as to what to do with Osborn School.

It was my suggestion at that meeting for the City consider purchasing and converting it to The Leavenworth Community Center.

I still believe this would be a great project for the City to consider. Why leave a good building go to waste and let us join the many communities that have Com-

munity Centers? Since the tax payers paid for this school

I would hate it be sold to a developer and prudent thing would be to let this be in the next thing you know you have a bunch of new condos. It would seem to me the this as a tax-payer development.

the hands of the city and let's continue

My thoughts are that Osborn School

SEE OSBORN ELEMENTARY ON PAGE 8

Mary Warden and Becca Otis, one of many close artist friends.

CONTINUED FROM PAGE 4

Art in the Park Thrived Under Mary Warden's Directorship Callie Baker is the New Director

"She was truly the backbone of the organization," saidIhde, who draws inspiration from nature when creating her multimedia paintings that often incorporate recycled materials.

"All of the artists relied on Mary for many things, whether it was direction, moral support, or a reality check!"

These artistsappreciate the opportunity that VAIP

represents. "The consistency of Art in the Park is pretty rare," said Kornowski. "Most art events, even the largest ones, are only a single weekend or a week at best, and if you want to hit a string of them all summer, you'll be traveling and re-learning new show rules every five days. To be able to show so often is a huge luxury that is not lost on us."

Over the years, artists come and go, but many return to VAIP for multiple seasons and with that continuity grows a sense of family. "I have made many lifelong friends," Warden

Ihde credits Warden's ability to bring people together. "Mary has an outgoing and positive attitude that draws everyone to her. She is like a third grand-

Typical beautiful day to stroll through Village Art in the Park.

ma to me as she is such a art programming that othwise and steadfast woman. Mary is also hilarious and has an infectious laugh."

VAIP not only benefits artists and visitors, but also helps foster the future of art.

Every year a graduate from Cascade High School is granted a scholarship to be used to pursue a major in the arts.

The \$8000 award is given out in \$2000 increments over four years.

Additionally, VAIP has an Art Enrichment Fund which donates \$2000 per year to one of the district's schools.

This fund allows the school to provide special

erwise it could not afford.

VAIP has shown resilience over the years. "It has endured many potentially devastating situations," explained Warden.

"The recession following the 2008 economic crash, forest fires, wind and rainstorms, relentless heatwaves."

Now, with the COVID-19 pandemic, health concerns and social distancing requirements, VAIP is having a delayed start in early June and is adapting to this new challenge.

Mary Warden's successor, Callie Baker, is wellsuited for dealing with unpredictability from her director work with Leavenworth Winter Sports Club's Junior Nordic Team, which must follow the whims of Mother Nature. And hopefully Baker will find she agrees with Warden, whose passion for the work sustained her through twenty

"I always believed that there needed to be a place where artists could make a living. I also felt the public needed to have art in their lives," said Warden.

"What a wonderful feeling it was to work for a nonprofit that did so many great things for the community. It was a win, win for me."

Upper Valley Historical Society Board

Please find below an update on the progress and happenings with our community's "Museum on the Move." While construction efforts ceased over nine weeks ago due to COVID-19 concerns, we are making progress towards our goal of reopening the Museum.

SUBMITTED BY MARGARET NEIGHBORS

Painting and electrical work are nearly complete. Exhibit design and creation are nearing completion. We are waiting for the installation of the carpet to continue this work.

Our collections are expanding, and we have some exciting new exhibits, including: A separate gallery for Greater Leavenworth area communities, including Plain, Lake Wenatchee, Peshastin, Dryden, and Blewett, to share their unique histories; Another separate gallery to display the Northwest Ski Museum's Hall of Fame currently on display at the Enzian Inn.; An Autumn Leaf Festival exhibit with a rotating display of past Royal Lady dresses, including the dress from Martha Jensen, our first Royal Lady of the Autumn Leaves (1964); A special guest exhibit of Welcome and Celia Sauer's Family Photos documenting experiences around their small farm Leavenworth (1927-1972)

Our original target date for reopening was April 30, just before the start of Maifest.

Now, due to the shut-down of carpet mills, the earliest we might open is mid-July.

As soon as we can safely move forward with the construction and

installation of exhibits, we will announce the date for the Grand Opening of the Greater Leavenworth Museum.

This special event is limited to Museum members and our 'Museum on the Move' Fund Drive donors.

If you plan to contribute to our 'Museum on the Move' Fund Drive, or if you would like to become a member, or renew your existing membership, you can do so online at www.leavenworthmuseum.org.

If you have any questions, comments, ideas, suggestions, concerns, or if you want to volunteer your time to help us reopen our community's Museum, please contact us at info@leavenworthmuseum.org.

Thank you for your interest and support in the reopening of the Greater Leavenworth Museum.

CONTINUED FROM PAGE 7

Osborn should be retained as a community center

building has all the "bones" for a very nice community center. You can use your

imagination.... Library would make • a nice place for teens to come and spend time. Perhaps some games, books to read, computers to help with homework, etc. I adult volunteer could volunteer to be a monitor.

 $2^{\text{You could open the gym}}_{\bullet \text{ on certain nights for}}$ folks to play some basketball or other sports. In the winter folks could go walking for exercise. You might also have some Yoga, dance or exercise classes as well. The gym can also be used for special events, fundraisers, meetings, conferences and more. There is a Kitchen which is a plus for groups that might want to offer food at their event or meeting.

You could use the office • for a person that would run the community center and perhaps at least one or two volunteers to print bulletins, newsletters, etc.

Classrooms could be 4 Classrooms councilled used for such things as: Art, Photography, English as a second language, travel movies, workshops, computer skills, meeting rooms for groups and so much more.

Here is just a short list examples of items one could see at our own Leavenworth Community Center!

Classes/Clubs: Free workshops - Investing and trading, etc., Grant Writing, How to publish your book, Computer skills, Cooking lessons, Walking Group, Book Club, Quilting, Line Dancing, Learn the Hula, Square Dancing, Watercolor painting/Oil painting, Drawing, Music lessons- Guitar - Piano, Learn CPR, Selfdefense, SAT preparation.

Here are some examples of other programs that I found that could be of inter-

A peer-led program was developed in response to the silence surrounding the issue of dating violence.

The DateWise curriculum uses presentations, discussion groups, videos, and

group activities. The Teen Program Staff trains interested teens to be peer educators and to present the program to 9th graders in the School District.

Teen Program Staff collaborate with the School District to offer homework help after school to teens in 6-8th grades.

Event Ideas: Need to schedule a holiday party?, Holiday Bazaar or Flea Market, Meeting Place for various Clubs or Non-profits, Small fundraiser-Italian night – Kitchen is on premises, Local vendors show-Jewery, art, etc, Breakfast with Santa, Teen dances, Wild West Casino Night, Bingo Nights, Movie nights, Fashion Shows, Veteran's Day-Free breakfast or lunch, St. Patrick's Day-Irish stew Dinner & music, Zumba class/ Zumba fitness, Tiny Tots Indoor Playground -Very good for winter, Child Care could be offered, Celebrate your birthday with games, themed activities, and fun in an activity room,

plus a designated party

room for cakes and presents. I suspect you could add other classes, events or activities to this list as well.

It would be my wish that you consider the purchase of the school for a community center. I feel strongly

step-up where needed. Remember we never thought we would convert that "Old Warehouse" into a Festhalle and look what happened and I know that so many community individuals were there to help and "yes it tooktime... but it got done."

that the community would

If you would like to discuss this with me feel free to e-mail me at graphicone@ charter.net.

I will look forward to your giving this proposal it's just

due and consideration. Here's something to think

This might be of interest: In 1973, the rival Twisp and Winthrop schools consolidated after the completion of a new high school located between the two towns, and that year's class was the last to graduate Twisp High School.

The building was abandoned and sat empty for five years, slowly falling victim to the work of time and van-

dals. Windows were broken, and pipes had flooded the gym floor.

The school district considered demolition, but the cost was estimated at \$600,000 dollars.

Fortunately, the community banded together and cleaned up the building, repaired leaks, replaced or boarded windows, and hauled out the trash, all out of pocket. The building was reborn as the Methow Valley Community Center in 1979.

Wenatchee River Salmon Festival Cancelled for 2020

Leavenworth - Due to the impacts of the Covid-19 pandemic affecting all of usin many ways, the much-beloved award- winning Wenatchee River Salmon Festival (Salmon Fest) has been cancelled in 2020.

This year's event was scheduled to be held at the beautiful Leavenworth National Fish Hatchery on the days of September 17th – 19th.

The popular north-central Washington nature festival will now begin looking forward to creating a special 30th Anniversary celebration, "Salmon of the Future," to be held September 15-18, 2021.

Festival organizers will follow all required guidelinesfor public health and safety concerns during all phases of planning during these most challenging times.

An educational event on the scale of Salmon Fest hosts approximately 2,500 students and pulls in hundreds of volunteers.

Natural resource and recreation specialists, community exhibitors, multi-cultural tribal educators, andother participants from throughout the entire Pacific Northwest are included. The public day can and non-profit partners and com-

draw more than 4,000 attendees. "The health and welfare of our festival visitors, students, volunteers, and community residents are top priority for the Salmon Fest planning team,"Festival Co-Directors Corky Broaddus and Hailey Croci clearly state.

"During this coronavirus time of our lives, wetruly areconcerned about the health and safety of all of our dedicated festival staff that work in every capacity of Salmon Fest management and operations.

"We thank our festival agency

munity contributors in helping us come to this hard cancellation decision."

U.S. Fish & Wildlife Service managers of Leavenworth National Fish Hatchery agree.

"Hosting a big public event this year presents far too many obstacles and concerns," Visitor Ser-

vices Manager Julia Pinnix noted. "Our first priority must be health and safety. Postponing the event until 2021 is a wise choice."

The Salmon Fest is a hands-on outdoor event whose mission is to connect people and nature by providing opportunities that create meaningful and enriching outdoor interpretation and education.

A visit to Salmon Fest builds life skills and experiences reaching out to all ages about the wonder of science, nature, and culture.

Please join us in 2021 to share a "salmon experience" with us during next year's upcoming Wenatchee River Salmon Festival "Salmon of the Future" celebra-

For updates on the event, visit salmonfest.org and follow the Wenatchee River Salmon Festival on Facebook.

How much calcium do you need?

Q: Should I be taking calcium pills for my bones?

Last fall, my 75-year-old next-door neighbor fell down 3 steps, shattering her left ankle into tiny pieces that were painstakingly put back together during a 5-hour surgery. She has osteoporosis, or thin bones due to years of taking daily prednisone for an inflammatory condition called lupus. Now her doctor has her taking a bone-building medicine, and she was told to take a calcium supplement every day.

Calcium helps keep our bones healthy, but it has other critical jobs as well: your muscles, nerves, and blood vessels depend on calcium to work properly. Every time your heart beats and you take a breath, the muscles of your heart and chest work to keep you alive and well. However, if you don't have enough calcium available, your body will take some out of your bones, like an ATM (automated teller machine) for calcium instead of \$20 bills.

If you run low on calcium occasionally, this only happens once in a while, and it's no big deal. Still, if your body pulls calcium out of your bones regularly, those withdrawals eventually weaken your bones, increasing your risk of a hip fracture, or worse.

How much calcium do you need?

The Institute of Medicine recommends 1000mg daily of calcium for men and women up to age 50, and 1200mg for adults older than 50 years of age. Most postmenopausal women get 600-900mg of calcium daily through their food, falling short of that goal unless they make up the difference with a calcium supplement.

Calcium supplements were recommended as a way to ensure women and men at risk for osteoporosis get their full recommended daily dose of calcium, but recent studies Ask... Dr. Louise

have shown that you can actually get TOO MUCH calcium, which increases your risk of having a heart attack or stroke. It's suspected that the spike in blood levels of calcium you get by taking a concentrated calcium supplement may actually damage blood vessels.

Taking large doses of calcium supplements also encourages the formation of painful kidney stones, so for bone health, getting ALL of your recommended daily calcium from taking a calcium supplement is no longer recommended.

Calcium carbonate is the most concentrated form of calcium supplement available but can cause constipation. Calcium citrate is absorbed better and a better choice if you also take an acid-blocking medicine like PrilosecÆ for heartburn.

Weight-bearing exercises like walking and eating prunes have also been shown to improve bone strength.

Here are 5 Tips on Getting **Enough Calcium:**

1. Get as much calcium from your diet as you can.

Most people get 300mg of calcium daily from non-dairy sources. You can also get 300mg per serving of dairy products like milk, yogurt, and cheese. Green vegetables, oranges, and figs also contain calcium. You also can use the Calcium Calculator available both as a phone app for iPhone and Android phones and online at The International Osteoporosis Foundation website www.iofbonehealth.org at their Quick Links.

2. If you take a bonebuilding medicine like FosamaxÆ (alendronate), ActonelÆ(risedronate), or BonivaÆ, make sure you get enough calcium.

These medicines work by encouraging calcium back into your bones, but if you don't have enough extra calcium available in your diet or by taking a supplement, they can't help you.

3. Avoid taking more than 500mg of a calcium supplement at one time.

Your body absorbs calcium better, and keeping your blood levels of calcium from ispikingî will help avoid increasing your risk of heart attack and stroke.

4. Get 400 IU of Vitamin D every day.

Vitamin D is necessary to help your body absorb calcium, and can help prevent falls in the elderly. You can get vitamin D from the sun, but salmon (800 IU per 3 ounces), canned tuna (150 IU per 3 ounces), fortified milk (about 120 IU per 4 ounces), and fortified orange juice (80 IU per 4 ounces) are also good sources.

5. Eat dried plums or prunes to build bone.

In one study, women who ate 100 grams of dried plums daily for a year had measurably stronger bones. Despite the extra calories, none of the women in the year-long study gained weight, possibly because of the very high fiber content of the plums. 100 grams of dried plums are about 9 of those plump plums sold in big bags at places like CostcoÆ. Watch out, though; plums (also known as prunes) have a natural laxative effect, so go slowly at first to avoid embarrassing side effects.

THE WASHINGTON OUTDOORS REPORT

Fish and Wildlife enforcement during the pandemic

By JOHN KRUSE, THE WASHINGTON OUTDOORS REPORT

On May 13 a regional news outlet reported the Washington Department of Fish and Wildlife issued 17 fishing violations and three land use (trespassing) violations in Chelan, Douglas and Grant counties during the month of April when fishing and access to state public lands were closed.

I spoke with Captain Mike Jewell with WDFW about this. I learned enforcement officers were busy but issued verbal warnings in all except the most egregious situations during the six-week closure period. CPT Jewell said a total of 732 individuals were contacted on closed state lands from late March through early May. Of that group, 129 individuals were fishing during the fishing closure that also occurred during this time period.

The few individuals cited were generally ones previously warned but choosing to trespass or fish anyway. Some examples of individuals cited included two who were fishing during the closure period and bragging about it on social media. One of these anglers, when contacted, was also found to have an illegal sized bass in his possession. Others cited were not only fishing during the closure but also had no fishing license. Still another was fishing a lake that wouldn't have been open for fishing even if the closure wasn't in effect. Others were not only fishing but doing so illegally trying to snag spawning walleye. The most interesting violation? That belonged to a person in a canoe shooting walleye with a crossbow under the cover of darkness.

Despite some of these seri-

Maralee Moore from Moses Lake caught this monster walleye fishing at Potholes Reservoir last week.

ous violations, enforcement officers only cited these people with civil infractions instead of the criminal misdemeanor charges many of them deserved. In short, WDFW enforcement officers were vigilant but took a soft enforcement approach during the fishing and state lands closure.

Central/Eastern **Washington Fishing** Reports Lake Chelan and Jameson Lake Lance Effrig, the owner of

Washington Guide Services says kokanee averaging 11 to 12-inches are spread out throughout the lake. Effrig is catching them by trolling Rocky Mountain Tackle dodgers and plankton squid lures in pink or orange colors at a depth of 30 to 50 feet.

If you don't have a boat you can cast for trout from public docks and parks. Try using a black Warden's Rooster Tail for success. A better bet for trout though might be a trip to Jameson Lake in Douglas County where Effrig says anglers are catching trout up to two-pounds from the bank. www.washingtonguideservices.com

Potholes Reservoir and The Seep Lakes

Pete Fischer at MarDon Resort reports good fishing for walleye, bass and trout at Potholes Reservoir. Walleye anglers have been having good success trolling nightcrawlers

on Mack's Lure Slow Death Hook rigs or #5 and #7 Berkley Flicker Shad crankbaits in perch colors. Lots of largemouth bass in the 1 to 3-pound range have been caught deep in the sand dunes while the smallmouth bass are being caught in the main reservoir. Finally, rainbow trout are not only being caught in the main lake, but also in the nearby Seep Lakes. The hot lakes over the past few days have been the Hamptons, Corral and Warden Lake. Drop by the store at the resort to find out more and if you want to go camping MarDon resort is fully open again. www.mardonresort.com

Lake Roosevelt Kevin Witte with B&K Fish-

ing Adventures says low water this year on Lake Roosevelt has the northern pike spread out near Kettle Falls though they are being caught by boaters trolling small crankbaits. Walleye fishing has been good and Witte has been limiting by noon. Troll bottom walkers and Mack's Slow Death rigs at a depth of 20 to 50 feet for success. As for trout, bank anglers are doing well in the Colville Flats area still fishing with bait. Other anglers are casting lures at the mouth of the Kettle River for pike and Daredeavle spoons are working well for that. Look for **B&K** Fishing Adventures on Facebook or call 509-398-7995 if you want to book a trip.
