

## Apple Days celebrates another successful year

PHOTOS BY CAROL FORHAN

The annual Cashmere Apple Days events ended on Sunday for another successful year. Apple pies were a highlight of the event as shown by Friends of Old Mission volunteer Shari Holomoka.

### Apple Pie Winners

- Grand Prize**  
Samera Holcomb
- Most Creative**  
Melissa Martin
- Senior (62+)**  
Candis Int-Hout
- Youth (17 & Under)**  
Ashleigh Hepnar
- Adult (18 - 61)**  
Susan Leavitt

The Tillicum Riders were on hand and were happy to give the children free pony rides.

Over 1100 guests gathered to hear great music and visit all the vendors and demonstrations offered this past weekend.

Vendors were welcomed to show and sell their handmade items.

## Grizzly Bear introduction into Chelan County?

PHOTO BY GARY BEGIN/NCW MEDIA

Only a sparse crowd of about 15 people attended the Confluence Technology Center meeting in Wenatchee, Tuesday, Oct. 1 about introducing 250 surplus Montana Grizzly Bears, to hear mostly negative testimony and a hard cold truth uttered by Chelan County Commissioner Bob Bugert. "We are not the decision makers." Pictured above is, from left, Bugert, Commissioners Kevin Overbay and Doug England.

## Local Fire Districts Receive \$720,000 to Replace Aging Equipment

SUBMITTED

Chelan County Fire Districts 3, 6, and Lake Wenatchee Fire and Rescue are pleased to announce the receipt of a Regional Assistance to Firefighters Grant award to support the purchase of new self-contained breathing apparatus for all three departments. The three departments were awarded \$722,629 in federal funds to replace their aging equipment.

Self-contained breathing apparatus are necessary to keep firefighters safe inside burning buildings or in other hazardous environments where the air is dangerous. Self-contained breathing apparatus are one of the most important, and expensive, pieces of protective equipment firefighters wear. With each unit costing over \$6000, federal assistance makes a significant difference.

"This equipment is critical to our operations," stated Chelan County Fire District 6 Chief Phil Mosher, "and we would not be able to make this region-wide replacement without grant funding."

The departments came together almost one year ago to start working

through the regional application. According to Lake Wenatchee Fire and Rescue Chief Mick Lamar, "We train together and support each other on active incidents. But up to this point we have had equipment that was mutually incompatible. It made sense to do this together."

To date this year, the Assistance to Firefighters Grant Program has awarded \$315 million dollars to over 1830 fire departments across the country. "We understand that over 8000 applications were received this year so this is a very competitive process," said Kelly O'Brien, Chief of Chelan County Fire District 3. "Our award is in the top 3% in terms of amount, so to be successful at that level is something that makes us incredibly proud."

A committee made up of members from each department is busy working through the acquisition process. The new equipment is estimated to be in service in the Spring of 2020. This much-needed upgrade will enable all three departments to ensure the safety of the men and women working hard to protect their communities.

## Corruption in Washington is killing our country

The Democrats and Republicans are at war. The Democrats declared the war when they lost the 2016 election. They convinced themselves that the Republicans stole the election.

Apparently, the Democrats believe that the American people made a mistake when they elected Trump and it is their duty to remove him any way they can.

The Republicans for their part have been patient. They tolerated 3 years of investigations and stories of corruption but it appears their patience has ended. Last Sunday's talking heads in the media were hit with a buzzsaw of angry responses to their latest accusatory questions.

Rudy Giuliani was especially vehement in his accusations of political partisanship in the media. Instead of responding to the questions posed by Fox News reporter Howard Kurtz he launched into a campaign accusing the media of political bias by ignoring the corruption of Vice-President Joe Biden. Kurtz tried to interrupt several times and divert the focus of Giuliani's attack but was unsuccessful. Giuliani was relentless in pointing out the corrupt activity of Joe Biden and asking why he shouldn't be investigated.

A similar attack by Republican Senator Ron Johnson occurred a little later on NBC's Meet the Press with Chuck Todd. When accused by Johnson of media bias a frustrated Todd said, "I have no idea why Fox News

**BILL FORHAN**  
PUBLISHER

propaganda stuff is popping up here."

Then he accused Johnson of trying to avoid answering his question by attacking the media. The problem here is Johnson did answer the question but it wasn't the answer

Todd was looking to hear.

All of this stems from the current spin by the Democrats that President Trump is attempting to solicit help from foreign governments in his campaign for reelection. Dems claim that Trump is seeking to have the Ukrainian government dig up dirt on Biden in the coming election.

There is a slight problem here. Joe Biden, himself, is on tape talking about how he did exactly what the Democrats are accusing Trump of doing. Uncle Joe proudly told the story about how he, in 2016, told the Ukraine government that they weren't going to get a \$1 Billion Dollar Loan unless they fired the prosecutor who was investigating corruption in a Ukrainian energy company. The problem is that Biden's son was on the Board of the company under investigation.

Trump and his supporters argue that the request for information is not about digging up dirt for the campaign but investigating corruption.

Democrats are arguing it's another example of Trumps using foreign governments to support his election and another example of why he should be impeached.

The problem is for three years now we have witnessed

nothing but obstruction, investigations and vitriol. It is amazing that President Trump has accomplished anything. But despite the Democrats best efforts to derail his Presidency the results so far are pretty impressive. We have the lowest unemployment rate since the 1950's and the stock market is booming.

Most of us who voted for Trump did so because we believed it was time to drain the swamp and it was evident none of the regular cast of characters were up to the job. The swamp has responded with a vengeance that only serves to support our theory that the corruption will not end without a fight.

What is especially troubling at this point is the speed at which "justice" has been pursued. We had over two years with an "independent prosecutor" that found nothing. We've had 3 years of the Inspector General looking into abuse of the FISA, Foreign Intelligence Surveillance Court, by the FBI and possibly CIA. Still no one has been indicted. A couple of the FBI individuals have been fired but should be in prison. Instead they are regular media consultants.

What seems clear is the level of corruption in the Federal Government is deeper than almost any of us imagined. This has to change but it is not going to change unless there are consequences to the individuals involved. That includes the politicians who let this happen as well as the unelected bureaucrats who abused their power.

Trump haters want us to believe that none of this would

have occurred if Trump had not been elected. That is undoubtedly true. The problem is corruption this deep doesn't happen in three years. It has been rotting for some time. It is definitely time to root it out.

It is time for all true Americans to take sides and demand the swamp be drained. Those who continue to support the questionable politicians and unelected bureaucrats who have made their careers through the politics of personal destruction do not understand what made America great in the first place. They need to be sent packing.

We have entrusted our government to career politicians for far too long. Career politicians have lost sight of the fact that their first responsibility is to look out for the average American citizens who elected them.

Building ever larger, more intrusive agencies that try to micro-manage our individual lives will not work. How have

they worked so far? Have Education or Energy really had a positive impact on our society? How about Health Care?

My wife often complains to me about a lot of problems she encounters. It has taken me years to figure out that that does not always mean she wants me to solve them for her. Unfortunately, politicians often make the mistake that complaints mean they need to develop a large new program to fix problems. Often they just need to make sure the current programs are actually working.

What we need to do today is to write to all of our Democrat representatives and tell them to knock it off. It is time to get to work. Drop the Impeachment investigation and commit to ending their persecution of our duly elected President.

Bill Forhan can be reached at 509-548-5286 or publisher@leavenworthecho.com.

### LETTERS TO THE EDITOR

**Disappointed**

I am frustrated and saddened by Mr. Forhan's editorial on Oct. 2nd, in which he decries the student-led climate strike in Leavenworth.

Mr. Forhan doubts the legitimacy of scientific consensus on climate change. However, "real" scientists include those who have earned the honor to be in the National Academy of Sciences, Engineering and Medicine (NAEM), a scientific advisory body established by President Lincoln in 1863.

The NAEM website declares, "Scientists have known for some time, from multiple lines of evidence,

that humans are changing Earth's climate, primarily through greenhouse gas emissions. The atmosphere and the Earth's oceans are warming, the magnitude and frequency of certain extreme events are increasing, and sea level is rising along our coasts. A solid foundation of scientific evidence on climate change exists. It should be recognized, built upon, and most importantly, acted upon for the benefit of society."

The scientist Mr. Forhan admires, named Patrick Moore, is not a climate scientist. His background is in forestry, and a check on Wikipedia shows he's had close ties to many industries, including logging and salmon

farming, so one should consider how these influences could affect his judgment.

Mr. Forhan describes the engaged youth as "zealots" of the new "religion" of climate change, attempting to antagonize those who have different opinions than he does. In fact, the students hold a range of religious beliefs, which is not actually relevant, because the science of climate change is based in our natural world. Religion deals entirely with the supernatural, so the two do not overlap.

The high school did not inculcate ideas into these teens. The school merely gave an avenue for the students to express their American rights to freedom of speech,

assembly and petition. If Mr. Forhan had attended the Climate Strike rally, he would have been as impressed as I was at the articulate and thought-provoking speeches.

These students weren't mad at the preceding generations. They recognized our knowledge of climate change is evolving, so we must be willing to adapt to counteract the global temperature rise. Claire Nelle, a senior, said, "This is not an unsolvable problem." It wasn't finger pointing. "Forge a pact with yourself to be a better steward of our planet," she said.

Mr. Forhan, think about the mathematics. In the 60's you reference, there were only 3 billion people on the planet.

Now there are 7.5 billion, and most of us use a lot more resources per person. Be willing to rethink your ideas. This is not a generational, us-versus-them issue. We all need to work together to come up with creative solutions.

After the Climate Strike and rally last Friday, the students returned to school where they could continue learning not only history, science and literature, but also how to think for themselves. I would be wary to recommend education be in the hands of parents alone. Maybe, Mr. Forhan, you should read the book, Educated. It might change your mind too.

# CHELAN GOATS VS. CASHMERE BULLDOGS

## The 'Battle for the Shoe' now in its 66th year

The Battle of the Bronze Shoe is this weeks annual classic matchup

By BILL FORHAN

Cashmere's headed into the 2019 Bronze Shoe Game following two losses. Having soundly defeated Chelan in last year's contest winning 30 - 7 over long time rival the Chelan Goats.

The Bronze Shoe Game is one that stands out amongst the others' during the season, along with the Pear Bowl against Cascade High School. Since the beginning of its start in 1953, the momentum for the game hasn't faded. The Bronze Shoe Game is one that most excitedly eye the season's schedule, anticipating the game. This year the game falls on the first week of October on Friday, October 11 at 7 p.m.

"I predict a good football game with two teams that

play the game the right way. It will be a physical game where adversity will strike both teams at some point throughout the game," said Cashmere's head coach Bryan Bremer.

The Cashmere Bulldogs are currently sitting at a 3-2 season, coming off their second loss of the season last week against league leading

Omak. The Chelan Mountain Goats are coming into the game at 4 -1 after losing to Okanogan last week.

The Bulldogs have a long standing reputation as being the ones to hold the trophy up at the end of the well-known game.

"Each player on the Bulldog roster needs to continue to try to reach their own potential.

If each individual player dedicates their thoughts and efforts to developing their own techniques, assignments and football IQ, in turn, we will become a better football team," said Bremer.

After winning last year's annual Bronze Shoe game, the Bulldogs aren't ready to let go of the title yet. A deeply rooted game in both

the Cashmere and Chelan communities, the eagerness to hold on tight to the Bronze Shoe trophy is fueling the Cashmere Bulldogs.

"Our message is simple, it doesn't matter who we play, when we play, or where we play. Our team will be ready. You can't run and hide that this game is circled on the schedule for both teams,"

said Bremer. "However, this game is not what motivates our team to succeed. We are motivated by love. We do not play the game of football to beat an opponent or win a football game regardless of our opponent. Rather we play for love. We play for the love of our school. We play for the love of our community. We play for the love for our program. And we play for the love of our teammates and brothers."
